# TABLE OF CONTENTS

|                                                                                                                                                      |    |
|------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Development and Analysis of Computational Models for Cyclones With Inclined and Horizontal Inlet<br>Pipe Configurations .....                        | 1  |
| <i>Sergey V. Gorbunov, Malik G. Ziganshin</i>                                                                                                        |    |
| Optimal Demand-side Management using MLPNN with FLC-PR-controlled for Bidirectional EV<br>Energy .....                                               | 8  |
| <i>R. Wongsathan, P. Thammarong</i>                                                                                                                  |    |
| Investigation of Two-Phase Thermosiphons in Passive Cooling Systems of Spent Fuel Pools .....                                                        | 14 |
| <i>S.E. Shcheklein, L.O. Yakovlev</i>                                                                                                                |    |
| Flashover Voltage Prediction of Polluted Insulators Using Extreme Gradient Boosting (XGBoost) .....                                                  | 19 |
| <i>Rama Alkhtiar, Jamal Alnassier, George Isber, Ibrahim Alwazah</i>                                                                                 |    |
| Computational and Experimental Study of Film Boiling in Subcooled Liquid .....                                                                       | 24 |
| <i>Nikita Krasnov, Daniil Deberdeev, Irina Molotova, Michael Vinogradov, Tatiana Gubanova, Ivan Molotov</i>                                          |    |
| Experimental and Computational Study of a Methane-Fueled Solid Oxide Fuel Cell Generator with<br>Thermodynamic Efficiency Analysis .....             | 30 |
| <i>Farit R. Gainutdinov, Andrey A. Chichirov, Dilyara F. Gaynutdinova, Egor S. Mayorov</i>                                                           |    |
| Computer Diagnostic Model of a High-Voltage Suspension Polymer Insulator .....                                                                       | 37 |
| <i>Damir K. Zaripov, Dinar F. Zakirov, Bogdan P. Tarasov</i>                                                                                         |    |
| Development of an Electrically Conductive Composite for 3D-Printing .....                                                                            | 43 |
| <i>Antonina A. Filimonova, Alena Yu. Vlasova, Egor S. Mayorov, Ruzina F. Kamalieva, Andrey A. Filimonov<br/>Artur M. Khairutdinov</i>                |    |
| Comprehensive Modeling and Optimization of AC Interference Mitigation on Buried Pipelines Under<br>EHV Transmission Lines .....                      | 51 |
| <i>Keltoum Hachani, Ali M El-Rifaie, Djekidel Rabah, Bentouati Bachir, M. M. R. Ahmed, A. M. Hamada</i>                                              |    |
| Seasonal Investigation of Energy Costs and Carbon Emissions in Hydrogen-Based Renewable Energy<br>Microgrids and Electric Vehicles .....             | 57 |
| <i>Um-e-Habiba, Ali M. El-Rifaie, A. M. Hamada, M.M.R. Ahmed, Ijaz Ahmed, Muhammad Khalid</i>                                                        |    |
| Analysis of the Condition of High-Voltage Insulators Using an Ultrasonic Testing Device with<br>Synchronization via an Electromagnetic Channel ..... | 63 |
| <i>Ivanov D.A., Vagapov A.I., Sadykov M.F., Lyubishev A.A., Yanikaeva K. Yu., Baginsky D. V.</i>                                                     |    |
| The Potential of Agrovoltatics in Uzbekistan .....                                                                                                   | 69 |
| <i>Shavkat E. Begmatov, Zarifa G. Pulatova</i>                                                                                                       |    |
| Solar Power Plant Cable Layout Based on Markov Clustering Algorithm .....                                                                            | 74 |
| <i>Vadim I. Zakutsky, Sanzhar A. Sharapov</i>                                                                                                        |    |
| Situational Blindness in Power Distribution: How Current Transformer Saturation Makes Immeasurable<br>Critical Power Transformer Overloads .....     | 79 |
| <i>Obed A. Nyarko, Vladimir N. Tulsy, Maxim A. Silaev</i>                                                                                            |    |
| An Intelligent Autonomous LED Lighting System for Facilities Without a Centralized Power Supply .....                                                | 85 |
| <i>Kryukov Dmitry Sergeevich, Denisova Alina Renatovna</i>                                                                                           |    |

|                                                                                                                                      |     |
|--------------------------------------------------------------------------------------------------------------------------------------|-----|
| Heat Inputs from Electric Cables in Waste Water Pumping Stations .....                                                               | 90  |
| <i>Muhammet A. Razakov, Alexandr Ya. Shelginsky</i>                                                                                  |     |
| The Impact of Heating Modes Unsteady in Buildings on the Correctness of Creating Their Digital Models .....                          | 96  |
| <i>Rustem R. Daminov, Alsu R. Husnutdinova, Malik G. Ziganshin</i>                                                                   |     |
| The Potential of Additive Technologies for Manufacturing Microturbines .....                                                         | 102 |
| <i>Alina R. Galiulina, Alexey I. Denisov, Natalya V. Denisova, Igor V. Ivshin</i>                                                    |     |
| A TD-TI-MRAC Approach for Robust Load Frequency Control Under Renewables and Cyber Attackers .....                                   | 109 |
| <i>Ahmed H. A. Elkasem, Salah Kamel, Mohamed Khamies, Mustafa M. Ali</i>                                                             |     |
| SLControl Software Environment for Analyzing the Characteristics of a Hybrid PV–SOFC System .....                                    | 116 |
| <i>Farit R. Gainutdinov, Dilyara F. Gaynutdinova, Arslan I. Galimov</i>                                                              |     |
| Study of an Absorption-Diffusion Refrigeration Machine with Integration of a Solar Vacuum Tube Collector .....                       | 122 |
| <i>Vasily S. Lukyanov, Baydaa Bo-Dakkah, Ildar A. Sultanguzin, Yury V. Yavorovsky, Anvar F. Karimov, Alexey V. Skorobatyuk</i>       |     |
| TTAO-Based Optimization of Hybrid Active Power Filters for Harmonic Mitigation .....                                                 | 128 |
| <i>Maha M. Ayoub, Salah Kamel, Loai Nasrat, José Luis Domínguez-García</i>                                                           |     |
| Optimal Design of an Off-Grid Hybrid Renewable Energy System Using Mirage Search Optimization .....                                  | 135 |
| <i>Zakaria Abd El-Aziem, Salah Kamel, Hoda Abd El-Sattar, José Luis Domínguez-García, Loai Nasrat</i>                                |     |
| Analysis of Interfacial Stresses in the Steel-PU System Under Thermal Loads .....                                                    | 142 |
| <i>Ilgiz M. Gazizullin, Guzel R. Badretdinova, Vitaly V. Kharkov, Guzel H. Gumerova</i>                                              |     |
| Comparative Study of Materials for Improving the Performance of Solid Oxide Fuel Cells .....                                         | 148 |
| <i>Timur M. Takhaviev, Guzel R. Badretdinova, Tigran I. Sabitov</i>                                                                  |     |
| Modeling and Optimization of Microgeneration Based on SOFC with Energy Storage for Energy Efficient Low-Rise Housing .....           | 154 |
| <i>Timur M. Takhaviev, Andrey V. Dmitriev, Oksana S. Dmitrieva</i>                                                                   |     |
| The Use of Renewable Energy Sources to Improve the Energy Efficiency of Power Supply Systems in the Northern Regions of Russia ..... | 159 |
| <i>Yuliya Zatsarinnaya, Elena Mironova, Marat Shakirov, Efim Shirobokov, Andrey Gerke</i>                                            |     |
| Stator Slot Number Optimization in Permanent Magnet Synchronous Motors with Fixed Geometry .....                                     | 165 |
| <i>Eduard E. Ibatullin, Timur I. Petrov, Vasily R. Basenko</i>                                                                       |     |
| Battling the Noise: Robust Machine Learning for Lithium-Ion Battery SoC Estimation .....                                             | 172 |
| <i>Alexei A. Druzhinin, Daniel Lisnovetski, Aleksei A. Matskevich</i>                                                                |     |
| Multi-Agent Control of Autonomous Power Systems with Distributed Energy Resources .....                                              | 180 |
| <i>Anastasia R. Petrova, Alfred R. Safin, Timur I. Petrov, Vasily R. Basenko</i>                                                     |     |
| Diagnostics of Rotating Electrical Equipment in Electrical Systems using Laser Technologies and Simulation Models .....              | 186 |
| <i>Samir F. Abdurashitov, Vasily R. Basenko, Timur I. Petrov, Valery A. Manakhov</i>                                                 |     |

|                                                                                                                                          |     |
|------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Impact of Fast Electric Vehicle Charging Stations on Power System Peak Loads .....                                                       | 191 |
| <i>Sevastian E. Mitrofanov, Azat N. Khusnutdinov</i>                                                                                     |     |
| Integrating Supercapacitor Energy Storage System on a Wind Turbine to Enhance Efficiency of Work<br>as a Part of Power Systems .....     | 197 |
| <i>Ramis V. Bulatov, Rustam R. Khisamov, Tatyana V. Ruzina, Petr A. Balaev, Fedor A. Chudin</i>                                          |     |
| Optimization of PEMFC Membranes Using a Hybrid Design of Experiments and Machine Learning<br>Approach .....                              | 204 |
| <i>Ryan Alshaikh, Amani Al-Othman, Abdulrahim Shamayleh, Paul Nancarrow, Muhammad Tawalbeh</i>                                           |     |
| Development of Classroom Lighting Systems Using a Biodynamic Model .....                                                                 | 209 |
| <i>Anastasia M. Borovkova, Ilya V. Korolev, Elena V. Fedorova, Alina Zagorskaya, E. Cheremnykh</i>                                       |     |
| An Analysis of the Effectiveness of ESG Transformation in Russian Business: Market Leaders .....                                         | 215 |
| <i>I.V. Korolev, E.B. Goncharova, N.S. Kalmykova, M.S. Goncharova</i>                                                                    |     |
| Investigation of the Metrological Performance of Power Quality and Energy Meter with IEC 61850-9-2<br>LE Support .....                   | 221 |
| <i>Olga A. Vasilyeva, Maria A. Shakhova, Ekaterina P. Lebedeva, Yulia A. Markovskaya<br/>Yelizaveta A. Burtseva, Valeria D. Ugolkova</i> |     |
| The Theory of Heat and Mass Transfer in Low-Weber Drop of Fine-Dispersed Coolant Flow .....                                              | 226 |
| <i>Mikael D. Martirosyan</i>                                                                                                             |     |
| Thermoeconomic Optimization of Graphite Filler Size in Liquid-Metal TES .....                                                            | 232 |
| <i>Nguyen Vu Linh, Azalia A. Abdulina, Ilnar I. Sharipov, Arslan M. Muginov, Andrey R. Gerke</i>                                         |     |
| Risk Assessment of Critical Defects in Boiler House Building Walls Using Interpretable Statistical<br>Analysis .....                     | 237 |
| <i>Vladislav Y. Yudin, Maria V. Terekhova, Nikolay D. Yakimov</i>                                                                        |     |
| A Multi-Level High-Voltage Bipolar Pulse-Generator Based on Reduced Number of Half-Bridge Legs .....                                     | 243 |
| <i>Ahmed Elserougi, Ibrahim Abdelsalam</i>                                                                                               |     |
| Multiphase PFC AC-DC Interleaved Converter .....                                                                                         | 249 |
