

PROCEEDINGS OF SPIE

Polarization: Measurement, Analysis, and Remote Sensing XVII

**David B. Chenault
Meredith K. Kupinski
Bradley M. Ratliff**
Editors

**27–28 April 2026
National Harbor, Maryland, United States**

Sponsored and Published by
SPIE

Volume 14041

Proceedings of SPIE 0277-786X, V. 14041

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Polarization: Measurement, Analysis, and Remote Sensing XVII*, edited by David B. Chenault, Meredith K. Kupinski, Bradley M. Ratliff, Proc. of SPIE 14041, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

POLARIMETRIC REMOTE SENSING OF EARTH, ATMOSPHERE, AND SURFACE PROPERTIES

- 14041 03 **Ice surface roughness and polarized bidirectional reflectance distribution function determination from spectropolarimetry** [14041-2]
- 14041 05 **Multiangle and polarimetric characterization of various Earth surface types with the PACE HARP2 polarimeter** [14041-4]
- 14041 06 **Retrieval of water parameters from above water and satellite polarimetric measurements** [14041-5]

POLARIMETRIC IMAGING IN SCATTERING AND UNDERWATER ENVIRONMENTS

- 14041 09 **Visible light QR streams with polarization encoding for low-signature underwater maritime communication** [14041-8]
- 14041 0A **Turbidity-gated polarization subset selection for efficient underwater object recognition with single-photon LiDAR** [14041-9]
- 14041 0B **Remote Mueller matrix polarimetry for image-based compensation in underwater scattering media** [14041-10]

MODELING, ALGORITHMS, AND PERFORMANCE LIMITS IN POLARIMETRIC SENSING

- 14041 0C **MODTRAN7: a polarimetric upgrade of radiometric MODTRAN6** [14041-12]
- 14041 0D **Why not consider frugal strategies for polarization demosaicing?** [14041-13]

POLARIMETRIC INSTRUMENTATION, METROLOGY, AND CALIBRATION TECHNIQUES

- 14041 0F **Polarimetric resolution targets for imaging polarimeter characterization tasks** [14041-15]
- 14041 0G **Stress-optic measurements using symmetric low-compressive pressures** [14041-17]

- 14041 OI **Polarization invariance of structured light in underwater turbulence** [14041-19]
- 14041 OJ **Polarimetric SWIR imaging: initial results and pathway to 3D heterogeneous integration**
[14041-20]

DEFENSE AND SECURITY APPLICATIONS OF POLARIMETRIC IMAGING AND FUSION

- 14041 OK **Environmental security applications of multispectral polarimetric imaging** [14041-21]
- 14041 OL **Edge-based multiframe noise suppression and demosaicing for DoFP polarimeter data**
[14041-23]
- 14041 OM **Publicly available co-boresighted airborne polarimetric datasets from ROCX 2025**
[14041-24]

DIGITAL POSTER SESSION

- 14041 ON **Influence of rain on polarimetric detection of wet road surfaces: an experimental evaluation under simulated rain conditions** [14041-11]
