

PROCEEDINGS OF SPIE

Fiber Optic Gyros: 50th Anniversary Conference

**Eric Udd
Glen A. Sanders
Herve C. Lefevre**
Editors

**27–30 April 2026
National Harbor, Maryland, United States**

Sponsored by
SPIE

Cosponsored by
Civitanavi Systems S.p.A. (Italy)
Honeywell Aerospace Technologies (United States)

Published by
SPIE

Volume 14042

Proceedings of SPIE 0277-786X, V. 14042

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Fiber Optic Gyros: 50th Anniversary Conference*, edited by Eric Udd, Glen A. Sanders, Herve C. Lefevre, Proc. of SPIE 14042, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

- vii *Conference Committee*
- ix *Introduction*

PERSPECTIVE ON FIBER OPTIC GYROS HISTORY I

- 14042 02 **Closed-loop fiber optic gyro development at McDonnell Douglas: 1977 to 1988** [14042-1]
- 14042 03 **The fiber optic gyro adventure at Photonetics, iXSea, iXblue, and now Exail** [14042-2]
- 14042 04 **History of fiber optic gyros at Northrop Grumman (Invited Paper)** [14042-3]

PERSPECTIVE ON FIBER OPTIC GYROS HISTORY II

- 14042 05 **Accumulation of fiber optic gyro research at The University of Tokyo: interferometer, resonator, Brillouin, and micro-optic gyros (Invited Paper)** [14042-4]
- 14042 06 **Forty five years FOGs at LITEF: from first engineering samples to high-volume production (Invited Paper)** [14042-5]
- 14042 07 **Development history and latest status of fiber optic gyroscope at JAE (Invited Paper)** [14042-6]

PERSPECTIVE ON FIBER OPTIC GYROS HISTORY III

- 14042 08 **Fiber optic gyro progress at Honeywell (Invited Paper)** [14042-7]
- 14042 09 **Fiber optic gyroscope activities in Korea's defense and civilian applications: insights from FIBERPRO (Invited Paper)** [14042-8]
- 14042 0A **Challenges and innovative solutions in the design of compact and resilient fiber optic gyroscopes for harsh environments (Invited Paper)** [14042-9]
- 14042 0B **High-performance interferometric fiber optic gyroscope development in Brazil: from open-loop to state-of-the-art closed-loop IFOGs (Invited Paper)** [14042-10]

PANEL DISCUSSION: FIBER OPTIC GYROS MEMORIAL AND EARLY PIONEERS

- 14042 0D **Panel discussion: fiber optic gyro memorial and early pioneers** [14042-701]

COMPANIES DERIVED FROM THE FIBER OPTIC GYRO I

- 14042 OE **So you want to start a FOG-based inertial navigation company? (Invited Paper)** [14042-12]
- 14042 OF **Inertial at the core: augmenting fiber optic gyros (FOG) with laser velocity sensors (LVS) for next-generation navigation (Invited Paper)** [14042-13]
- 14042 OG **Aspects of the fibernetics navigation-grade inertial measurement unit (IMU) (Invited Paper)** [14042-14]

COMPANIES DERIVED FROM THE FIBER OPTIC GYRO II

- 14042 OI **Derivative fiber optic sensor applications from development of the closed-loop fiber optic gyro** [14042-16]
- 14042 OK **Sagnac secure fiber optic communication system** [14042-18]

PANEL DISCUSSION: THE BUSINESS OF FIBER OPTIC GYROS

- 14042 OM **Panel discussion: the business side of fiber optic gyros** [14042-702]

CRITICAL FIBER OPTIC GYRO COMPONENTS

- 14042 OO **Recent progress of manufacturing FOG coils for diverse applications (Invited Paper)** [14042-21]
- 14042 OP **1550nm SLED transceiver module with integrated wavemeter (Invited Paper)** [14042-22]

OPTICAL RING RESONATORS

- 14042 OR **Advances in high-performance resonant fiber optic gyroscopes (Invited Paper)** [14042-25]

APPLICATIONS OF FIBER OPTIC GYROS

- 14042 OT **The SOFIA FOG180s: a milestone in the evolution of fiber optic gyroscope technology (Invited Paper)** [14042-26]
- 14042 OU **Single axis fiber optic gyro (FOG): how robust can it get? (Invited Paper)** [14042-27]
- 14042 OV **SuperFOG: ultra-high-performance inertial navigation system (Invited Paper)** [14042-28]

- 14042 0W **LN200HP (compacted high-performance IMU) with high-gyro bandwidth, low-quantization noise, ARW, and gyro bias error** [14042-30]

PANEL DISCUSSION: SPACE APPLICATIONS OF FIBER OPTIC GYROS

- 14042 0X **Strategic advancement of domestic fiber optic gyroscopes: from high-precision polarization-maintaining fiber to multicore fiber innovation (Invited Paper)** [14042-38]
- 14042 0Z **The roles of fiber gyros in access and operation in space** [14042-703]

PANEL DISCUSSION: MAJOR MILESTONES IN FIBER OPTIC GYRO DEVELOPMENT

- 14042 11 **Panel discussion: major milestones in fiber optic gyro development** [14042-704]

FIBER OPTIC GYRO CAREER WORKSHOP

- 14042 12 **How my education in optics led to the invention of the closed-loop fiber optic gyro and my career in fiber-optic sensors** [14042-34]
- 14042 13 **Fiber optic gyro career workshop** [14042-705]
