

PROCEEDINGS OF SPIE

Advances in 3OM (Opto-Mechatronics, Opto- Mechanics, and Optical Metrology); and Photonics Technologies (3OM 2025)

Virgil-Florin Duma
Mircea Guina
Editors

8–11 December 2025
Timisoara, Romania

Organized by
3OM Optomechatronics Group (Romania) • Polytechnic University of Timisoara (Romania)

Co-Organized by
AdrVest - Agency for Regional Development West Region (Romania)
"Victor Babes" University of Medicine and Pharmacy of Timisoara (Romania)
Universitatea Politehnica Timisoara SPIE Student Chapter (Romania)

Sponsored by
Important Project of Common European Interest (IPCEI ME/CT), project ASSET-IxC-UPT (EU) • RIANA-Project (EU) COST Action 21159-PhoBioS (EU) • Aumovio Technologies (Romania) • Apel Laser SRL (Romania) • TehnoINSTRUMENT (Romania) Amplitude (France) • FineTech GmbH (Germany) • Gursk Medica SRL (Romania) • MDPI (Switzerland)

Volume 14159

Proceedings of SPIE 0277-786X, V. 14159

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Advances in 3OM (Opto-Mechatronics, Opto-Mechanics, and Optical Metrology); and Photonics Technologies (3OM 2025)*, edited by Virgil-Florin Duma, Mircea Guina, Proc. of SPIE 14159, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committees*

HIGH-POWER LASERS AND LASER MANUFACTURING

- 14159 02 **New challenges for high-power laser optics in ELI-NP, Romania (Plenary Paper)** [14159-16]
- 14159 03 **Approach to preventing the carbonization of dielectric mirrors in ultra-intense laser systems** [14159-13]
- 14159 04 **Quantitative modelling of absorptance with material preheating in laser processing of stainless steel** [14159-29]
- 14159 05 **Development of a modular femtosecond laser system for optical fiber and surface micromachining: part II** [14159-39]
- 14159 06 **Assessing and correcting the degradation of optical surfaces in industrial laser scanning systems** [14159-47]

SENSING AND PHOTONICS TECHNOLOGIES

- 14159 07 **Nanophotonic technique for environmental monitoring using full scattering profile optical spectroscopy (Plenary Paper)** [14159-24]
- 14159 08 **Machine learning meets IoT: improved approaches to agricultural leaf monitoring (Invited Paper)** [14159-11]
- 14159 09 **Distributed UV sensing with optical fluorescent fiber and IoT integration, for monitoring light-sensitive artifacts (Invited Paper)** [14159-19]
- 14159 0A **Spectral control of a quasi-collinear AOTF through temporal shaping and apodization of the RF signal (Invited Paper)** [14159-31]
- 14159 0B **Power over fiber and data transmission: applications and recent advances (Invited Paper)** [14159-32]
- 14159 0C **Romanian banknote classification from image using TensorFlow and Keras** [14159-18]
- 14159 0D **Low-cost portable fiber-optic sensing system using a smartphone-based broadband light source and 3D-printed coupler based on diffuser sphere** [14159-30]
- 14159 0E **A framework for detecting microplastics in groundwater aquifers: integrating hydraulic parameters, dielectric properties and optical spectroscopy** [14159-37]
- 14159 0F **Validation-aware analysis of optical data from a fiber optic SARS-CoV-2 biosensor** [14159-45]

OPTOMECHATRONICS AND OPTOELECTRONICS

- 14159 OG **Optomechatronic systems with applications in positioning and vibration attenuation for laser instruments applications (Invited Paper)** [14159-41]
- 14159 OH **Class D amplifier with adaptive feedback loop for opto-mechatronic applications** [14159-42]
- 14159 OI **Optomechatronic integration of additive manufacturing for process optimization and quality control in 3D food printing** [14159-25]
- 14159 OJ **DSP control and ESP32-based monitoring interface for a 1kW isolated Ćuk converter for photovoltaic applications** [14159-44]
- 14159 OK **Analysis and implementation of a DC-DC converter used to control an adaptive automotive LED matrix** [14159-46]

OPTICS AND OPTICAL METROLOGY

- 14159 OL **The influence of different post processing treatments on optical properties of transparent resin manufactured through mSLA** [14159-26]
- 14159 OM **Achromatic air-spaced doublet automated design** [14159-33]
- 14159 ON **Software application for automated lens and lens assembly synthesis** [14159-34]
- 14159 OO **Process automation and control for performance evaluation of photovoltaic panels** [14159-35]
- 14159 OP **Manufacturing and testing small-diameter telescope mirrors** [14159-1]
- 14159 OQ **Photogrammetric application for the design of an ecological campsite and geodynamic base on the shore of Lake Surduc in Romania** [14159-2]

BIOMEDICAL OPTICS AND IMAGING

- 14159 OR **Whiteness and color stability of thermoplastic appliances due to hydration and artificial ageing** [14159-12]
- 14159 OS **Experimental analysis of the influence of the customized foot-contact surface interface on the ground reaction force** [14159-21]
- 14159 OT **Assessment of internal and marginal fit related to the artificial aging of onlays obtained from high-performance polymers using CAD/CAM technology** [14159-23]
- 14159 OU **Optical filters in medical imaging to improve diagnosis** [14159-27]
- 14159 OV **Reconstruction and 3D printing of a patient-specific trachea and bronchi model** [14159-28]

- 14159 OW **Laser treatment and photo-biomodulation combined with antibiotherapy along with advanced plasma-rich fibrin for MRONJS** [14159-38]
- 14159 OX **Intraoral endoscope versus dental operating microscope in revealing dental microanatomy** [14159-43]

EDUCATION IN OPTICS AND PHOTONICS

- 14159 OY **Opportunity of gaining knowledge about optical refrigeration by future marine engineers; case of study: Constanta Maritime University** [14159-4]
