

PROCEEDINGS OF SPIE

Fourth Conference on Space, Atmospheric, Marine, and Environmental Optics (SAME 2026)

Wenqing Liu
Editor

27–29 March 2026
Xi'an, China

Organized by
Chinese Laser Press (China)

Sponsored by
MinWave Photonics(China) • Nanjing Zhongke Shengguang Science & Technology Company, Ltd. (China) • Zhongke Optoelectronic Technology Company, Ltd. (China) • ZHONGKE COMPOSITE (China) • LUMI BIRD (China) • Xi An SNP Precision Optics Company, Ltd. (China) • Hangzhou Yuzhiquan Precision Instrument Company, Ltd. (China) • GRACE LASER (China) • Zhongke Infrared (Beijing) Technology Company, Ltd. (China) • Time-Tech Spectra, Company, Ltd. (China) • CPG (China) • Anhui Cenfeng Technology Company, Ltd. (China) • Beijing Yixin Technology Company, Ltd. (China)

Volume 14250

Proceedings of SPIE 0277-786X, V. 14250

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Fourth Conference on Space, Atmospheric, Marine, and Environmental Optics (SAME 2026)*, edited by Wenqing Liu, Proc. of SPIE 14250, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

FOURTH CONFERENCE ON SPACE, ATMOSPHERIC, MARINE, AND ENVIRONMENTAL OPTICS (SAME 2026)

- 14250 02 **Experimental demonstration of distance measurement underwater based on a zoom camera and two laser diodes** [14250-1]
- 14250 03 **High-sensitivity fiber Bragg grating geophone with hinge structure** [14250-2]
- 14250 04 **Distributed marine integrated acoustic-magnetic detection optical cable and fully distributed monitoring method** [14250-4]
- 14250 05 **Multi-dimensional study of laser ranging echo characteristics and detection performance for space debris** [14250-5]
- 14250 06 **LACHnet: lightweight underwater image enhancement via adaptive color and high-frequency guidance** [14250-6]
- 14250 07 **Research on on-orbit relative radiometric calibration methods for division of focal plane polarimetric remote sensing instruments** [14250-8]
- 14250 08 **Research of the effects of snow depth and snow impurities on snow albedo** [14250-9]
- 14250 09 **Reflection-enhanced differential laser-induced thermoelastic spectroscopy for gas detection** [14250-10]
- 14250 0A **Evidence-reasoning-based turbulence estimation for laser communication** [14250-11]
- 14250 0B **Improved DQ-1 spaceborne IPDA lidar XCO₂ retrieval accuracy by an enhanced inversion and post-processing framework** [14250-12]
- 14250 0C **Design and analysis of high-efficiency and low-polarization multilayer dielectric immersion diffraction grating** [14250-13]
- 14250 0D **Synergistic active remote sensing of aerosol vertical structure over the Qinghai region** [14250-17]
- 14250 0E **Research on a low-frequency fiber Bragg grating vibration sensor** [14250-18]
- 14250 0F **Study on simulation model of spaceborne coherent Doppler wind lidar** [14250-19]

- 14250 OG **Investigation of low-cost liquid leakage detection using optical fiber sensing technology**
[14250-20]
- 14250 OH **Statistical analysis of wheat regional growth dynamics based on FY-3F NDVI** [14250-21]
- 14250 OI **Addressing green tint issues in night rocket launch image processing** [14250-22]
- 14250 OJ **Effects of distance and source size on radiometric calibration of field spectroradiometers**
[14250-23]
- 14250 OK **Hierarchical actuation analysis of ultra-lightweight space telescope for active optics**
[14250-24]
- 14250 OL **Investigation into the atmospheric transmission efficiency of pulsed deuterium fluoride laser**
[14250-25]
- 14250 OM **Characterization of light-induced responses in live *Pediastrum* using fluorescence lifetime
imaging microscopy** [14250-27]
