

PROCEEDINGS OF SPIE

International Conference on Machine Learning and Large Models (ICMLM 2026)

Lei Yang
Yiming Tang
Editors

20–22 March 2026
Qingdao, China

Organized by
China University of Petroleum (China)

Sponsored by
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 14256

Proceedings of SPIE 0277-786X, V. 14256

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on Machine Learning and Large Models (ICMLM 2026)*, edited by Lei Yang, Yiming Tang, Proc. of SPIE 14256, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committee*

LEARNING ALGORITHMS AND MODELS

14256 02	PPO-based 3D missile guidance with field-of-view constraint: a reinforcement learning framework integrating line-of-sight prediction and behavioral cloning [14256-3]
14256 03	Air target threat assessment based on improved FAHP [14256-18]
14256 04	Automatic data classification and hierarchical annotation method under multimodal contrastive learning [14256-15]
14256 05	Comment-aware mini knowledge graphs meet LLMs: fine-grained emotion and stance annotation for political news [14256-34]
14256 06	Research on cross-modal data alignment algorithms in multimodal learning [14256-33]
14256 07	Comparative study on path planning performance of Dijkstra and A* algorithm in random obstacle environment [14256-16]
14256 08	E-commerce comment sentiment analysis based on ERNIE-RCNN model [14256-5]
14256 09	Prompt-enhanced generative transformer for context-aware sensitive information moderation [14256-59]
14256 0A	Traffic flow prediction with missing and abnormal data based on non-negative tensor decomposition [14256-39]
14256 0B	Design and implementation of neural networks for deterministic stochastic computing [14256-14]
14256 0C	M-DAFNet: a deep learning framework based on multidimensional adaptive perception and generative occlusion repair [14256-56]
14256 0D	Latent preference inference and fair aggregation in dual-channel elimination systems [14256-36]
14256 0E	A method of coupling critical-to-quality features selection for complex products based on deep autoencoder [14256-19]
14256 0F	A novel hybrid computational framework for predicting settlement in elevated embankments using enhanced evolutionary algorithms and Grey System Theory [14256-45]

- 14256 OG **Application of BP neural network in creep prediction of special reinforcement materials** [14256-48]
- 14256 OH **A systematic literature review of artificial intelligence for test case generation** [14256-4]
- 14256 OI **Research on efficient global optimization method based on multiprecision surrogate model and active learning** [14256-7]
- 14256 OJ **Joint generation of hybrid features via dynamic interaction and collaborative enhancement for deep hashing** [14256-1]
- 14256 OK **Optimization of target motion parameter calculation strategy based on SAC** [14256-54]
- 14256 OL **Debiasing high-order feature interactions for CTR prediction via spurious correlation elimination** [14256-26]
- 14256 OM **TibetanCorrector: a BERT-BART fusion model for Tibetan text error correction** [14256-46]
- 14256 ON **Synergistic representation learning via adaptive normalization for robust code defect identification** [14256-47]
- 14256 OO **An agentic framework for geometry problem solving with multimodal large language** [14256-29]
- 14256 OP **A text-image matching model based on bidirectional negative perceptual attention** [14256-57]
- 14256 OQ **Machine learning-driven prediction of tensile properties for 3D printed TC4 titanium alloy** [14256-9]
- 14256 OR **Estimation and verification of wind gradient parameters based on PINN** [14256-31]
- 14256 OS **A motor imagery classification framework based on variational mode decomposition and entropy-based features** [14256-8]
- 14256 OT **Application and parameter optimization of Q-learning algorithm in path planning** [14256-20]

INTELLIGENT PERCEPTION AND IMAGE PROCESSING

- 14256 OU **Coverage of contemporary Huliangwang LEO constellation with respect to ground grids and their space safety simulations** [14256-42]
- 14256 OV **Precise positioning and path planning algorithm for helicopters based on the BeiDou navigation system** [14256-52]
- 14256 OW **Performance analysis of collaborative augmented reality learning system based on Unity3D** [14256-58]

- 14256 0X **Design and verification of an FPGA-based attitude calculation system for small hovering rockets** [14256-25]
- 14256 0Y **Airfoil inverse design based on multimodal input point cloud network** [14256-43]
- 14256 0Z **LiteHybridNet: a decoupled CNN-transformer hybrid model for efficient remote sensing scene classification** [14256-27]
- 14256 10 **A study on rainy scene image generation via multilevel physics model and style transfer network** [14256-32]
- 14256 11 **Mask-YOLO: a lightweight framework integrating tensor decomposition and SimAM attention mechanism for mask detection** [14256-12]
- 14256 12 **Research on the path of multimodal teaching evaluation integrated with local large-scale models** [14256-30]
- 14256 13 **The convergence of digital twins and cyber-physical systems: architectures, applications, and future directions** [14256-28]
- 14256 14 **Research on intelligent perception-based helicopter flight path optimization algorithm** [14256-22]
- 14256 15 **Deepfake detection via dental edge and arrangement analysis** [14256-60]
- 14256 16 **Control strategy for multiport energy router based on improved PID neural network** [14256-11]
- 14256 17 **A simple and effective bearing fault diagnosis method based on continuous wavelet transform and VGG16** [14256-35]
- 14256 18 **Optimization of aviation technical personnel recruitment quality assessment and echelon structuring methods based on enhanced BP neural networks** [14256-49]
- 14256 19 **A stacking-based ensemble framework for heart disease prediction with clinical feature analysis** [14256-21]
- 14256 1A **Research on coal pile volume calculation method in coal bunker based on point cloud semantic segmentation** [14256-6]
- 14256 1B **Research on retrieval-enhanced question-answering methods for cattle farm production management** [14256-55]
- 14256 1C **PhyFreqNet: physics-guided frequency domain enhancement for underwater images** [14256-17]
- 14256 1D **LSAIS: a universal point-supervised instance segmentation framework for heterogeneous architectures** [14256-13]

- 14256 1E **UWJ-GAN: jamming waveform generation for underwater wireless sensor networks** [14256-2]
- 14256 1F **Spectral-gated hybrid CNN-transformer network for landslide segmentation in remote sensing images** [14256-44]
- 14256 1G **FFNet: a feature-frequency fusion-based wildfire extraction network** [14256-37]
- 14256 1H **Robust visual tracking under light spot interference** [14256-10]
- 14256 1I **Construction and optimization: a quantitative assessment model for cross-business integration of power supply services** [14256-53]
