

PROCEEDINGS OF SPIE

International Conference on Generative Artificial Intelligence and Image Processing (GAIP 2026)

**Jie Yang
Chuan Qin**
Editors

**24–26 April 2026
Changchun, China**

Organized by
Changchun University of Science and Technology (China)

Sponsored by
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 14292

Proceedings of SPIE 0277-786X, V. 14292

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on Generative Artificial Intelligence and Image Processing (GAIIIP 2026)*, edited by Jie Yang, Chuan Qin, Proc. of SPIE 14292, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

GENERATIVE MODELS AND MULTIMODAL INTELLIGENCE

- 14292 02 **A multiagent dynamic game-based method for complaint public opinion risk monitoring**
[14292-35]
- 14292 03 **AttnFusion: gated cross-attention for fine-grained visual injection in latent diffusion models**
[14292-10]
- 14292 04 **Dual-path attention modulation for training-free text-guided image editing** [14292-31]
- 14292 05 **Unmasking the algorithm: a review of algorithmic bias and fairness in medical AI and image processing** [14292-24]
- 14292 06 **Research on scene concept image generation design based on stable diffusion model**
[14292-7]
- 14292 07 **Lightweight reasoning models for NER** [14292-25]
- 14292 08 **A short text sentiment analysis method integrating BiGRU and additive attention** [14292-9]
- 14292 09 **Searching for lost railway items based on multimodal image-text retrieval technology**
[14292-26]
- 14292 0A **Research on abstract generation methods of large language models in low-resource scenarios optimized based on computer technology** [14292-12]
- 14292 0B **3D vision-language question answering with explicit scene graphs and local topology priors** [14292-13]
- 14292 0C **Closed-loop medical knowledge graph question answering with adaptive planning and consistency verification** [14292-33]
- 14292 0D **FE-GAN: feature enhancement and fine-grained interaction for text-to-image synthesis**
[14292-6]
- 14292 0E **DLPP: a generative learning path planning framework based on LLM semantic guidance and closed-loop optimization** [14292-1]

IMAGE PROCESSING AND VISUAL RECOGNITION

- 14292 0F **Improved slime mould algorithm for three-dimensional UAV path planning in multi-threat environments** [14292-3]

- 14292 OG **Face photo-sketch translation method based on global-local fast Fourier convolution and adaptive cross-domain attention** [14292-14]
- 14292 OH **Self-supervised learning-based denoising for SPECT images in whole-body bone scan** [14292-15]
- 14292 OI **Research on human ear image kinship recognition method based on Siamese neural network and cross-attention mechanism** [14292-4]
- 14292 OJ **MSAD-YOLO: a lightweight ear recognition method based on YOLOv11 for small objects identity authentication** [14292-5]
- 14292 OK **Real-time detection and alerting system for dangerous electric bicycle driving behaviors based on YOLOv11 and K230 edge-AI SoC** [14292-20]
- 14292 OL **A multistage progressive image restoration network for single image deraining** [14292-37]
- 14292 OM **Polyphase resampling artifact modeling for generalizable deepfake detection** [14292-21]
- 14292 ON **Lightweight detection system for tea plant diseases and pests based on improved YOLOv8s** [14292-23]
- 14292 OO **A fast method for selecting target values for chromaticity correction of LED display screens** [14292-2]
- 14292 OP **Detection and tracking of small-sized vehicles in aerial video from UAVs** [14292-22]
- 14292 OQ **Image-enhancement-based detection of shallow-water submerged biological targets** [14292-17]
- 14292 OR **A refined method for high-coherence points based on joint PS and DS and application in mining area deformation monitoring** [14292-19]
- 14292 OS **An image quality evaluation method based on weighted fusion** [14292-36]
- 14292 OT **DG-MAMBAVSR: degradation-gated alignment and local-enhanced Mamba fusion for old-film video super-resolution** [14292-18]
