

PROCEEDINGS OF SPIE

International Conference on Machine Learning and Embedded Systems (MLES 2026)

Dongshu Wang
Lina Yao
Editors

24–26 April 2026
Suzhou, China

Organized by
Xijing University (China)

Sponsored by
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 14295

Proceedings of SPIE 0277-786X, V. 14295

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on Machine Learning and Embedded Systems (MLEs 2026)*, edited by Dongshu Wang, Lina Yao, Proc. of SPIE 14295, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

MACHINE LEARNING, EMBEDDED SYSTEMS, AND IMAGE ANALYSIS

- 14295 02 **KNN-maximum dispersion balanced K-means algorithm** [14295-19]
- 14295 03 **Research on classroom head-up rate analysis method integrating improved DSDF and dual-branch pose recognition** [14295-11]
- 14295 04 **Recursive graph modeling with cross-modal distillation for rs-fMRI-based Alzheimer's disease classification** [14295-2]
- 14295 05 **Disturbance rejection tracking control of robotic manipulators based on extended state observer** [14295-3]
- 14295 06 **A perception module for caregiving robots: height and distance estimation from RGB-D data** [14295-22]
- 14295 07 **Research on energy consumption assessment of intelligent new energy vehicles considering random driving cycles and intelligent driving components** [14295-17]
- 14295 08 **Telephone channel watermark algorithm based on U-Net-BCH model** [14295-12]
- 14295 09 **Robust traffic scene recognition via bidirectional cross-attention-based vision-map fusion** [14295-9]
- 14295 0A **MFABuilding: a multifeature aggregation model with hybrid CNN-transformer for building extraction** [14295-4]
- 14295 0B **Segmented optimization-based offline batch motion retargeting for humanoid robots** [14295-13]
- 14295 0C **Activation-constrained two-stage star detection and centroiding for edge deployment** [14295-16]
- 14295 0D **Lightweight recognition network for dense crowd images based on YOLO11** [14295-5]
- 14295 0E **Loupe: image forgery detection and localization based on a multilevel feature collaboration bridge** [14295-7]
- 14295 0F **Forest fire detection based on VTOL UAV and YOLOv8s with BiFPN and MLCA** [14295-8]
- 14295 0G **Forest flame detection based on an improved YOLOv8** [14295-6]

- 14295 OH **GNN-driven disentangled cultural control for AIGC-generated intangible cultural heritage short videos** [14295-15]
- 14295 OI **Low-cost edge AI fault diagnosis system for rotating machinery based on ESP32-S3** [14295-18]
- 14295 OJ **FADE: frequency-aware decomposition implicit neural representation for volume reconstruction in freehand 3D ultrasound** [14295-10]
- 14295 OK **An end-to-end wireless sorting system based on light-weight YOLO and RTOS** [14295-14]
- 14295 OL **Prediction of compressive and flexural strength of modified concrete using machine learning** [14295-21]
- 14295 OM **Lightweight global-local dual-branch fusion for representative multicrop disease recognition** [14295-20]
- 14295 ON **Fault diagnosis of 220kV transmission lines using wavelet neural network optimized by scaled conjugate gradient algorithm** [14295-23]
