

PROCEEDINGS OF SPIE

International Conference on Electronic Devices and Intelligent Control (EDIC 2026)

**Mário Fernando Santos Ferreira
Huolin Huang**
Editors

**27–29 March 2026
Xiamen, China**

Organized by
Chongqing University of Posts and Telecommunications (China)

Sponsored by
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 14300

Proceedings of SPIE 0277-786X, V. 14300

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on Electronic Devices and Intelligent Control (EDIC 2026)*, edited by Mário Fernando Santos Ferreira, Huolin Huang, Proc. of SPIE 14300, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committee*

ELECTRONIC DEVICES AND MATERIALS

- 14300 02 **Effect of spraying power on microstructure and dielectric properties of 50YSZ coatings**
[14300-50]
- 14300 03 **4D printing of carbon nanotubes-reinforced shape memory polymer composites with superior shape memory properties** [14300-61]
- 14300 04 **Study on smoke generation characteristics of blue smoke agent based on film and television special effects requirements** [14300-76]
- 14300 05 **Optimization of high-speed link PCB design based on signal integrity simulation** [14300-20]
- 14300 06 **Impact of precursor deposition sequence on the performance of ALD-deposited IGZO and IZGO transistors** [14300-36]
- 14300 07 **Total dose effect response characteristics and radiation hardness analysis of TVS devices**
[14300-3]
- 14300 08 **Power cycling reliability assessment for plastic-packaged SiC MOSFETs** [14300-29]
- 14300 09 **Fabrication of iron oxide materials and their research advances in supercapacitor**
[14300-28]
- 14300 0A **Design and performance research of solar absorbers based on titanium nitride (TiN) metamaterials** [14300-30]
- 14300 0B **Research progress of MXene-based composite phase change materials in thermal management: a review** [14300-21]
- 14300 0C **Parasitic oscillation failure mechanism analysis and reliability assurance of crystal oscillator**
[14300-59]
- 14300 0D **Research progress in cobalt oxide materials for supercapacitor energy storage** [14300-55]
- 14300 0E **Analysis of the electric field around defects on the mask surface during plasma etching**
[14300-63]
- 14300 0F **High-performance ALD-deposited IGZO field-effect transistors enabled by ozone annealing**
[14300-16]
- 14300 0G **Design of a compact polarization splitter based on a sandwich structure** [14300-58]

- 14300 OH **Optimizing the tapered coupler for multilayer optical interconnects** [14300-46]
- 14300 OI **Research on performance optimization of road thermoelectric energy harvesting system based on embedded T-shaped metal heat collector structure** [14300-9]
- 14300 OJ **Behavioral modeling of power amplifiers based on CNN-GRU hybrid neural networks** [14300-87]
- 14300 OK **Research on thermal performance enhancement of flexible spring connected press-pack IGBT modules based on aluminum-diamond packaging** [14300-31]
- 14300 OL **Fabrication, characterization, and soft robotic demonstration of a rolled dielectric elastomer actuator** [14300-22]
- 14300 OM **Power-law fluid modeling for photoresist consumption reduction in spin-coating lithography** [14300-79]

CONTROL AND SYSTEMS ENGINEERING

- 14300 ON **Collaborative anti-interference design and engineering practice based on PLC, frequency converter, and touch screen under explosion-proof conditions** [14300-34]
- 14300 OO **Trajectory prediction model of airport flight area based on transformer network** [14300-70]
- 14300 OP **Trajectory tracking control for autonomous guided vehicles using robust model predictive control** [14300-26]
- 14300 OQ **Rack welding line design based on ABB robots** [14300-10]
- 14300 OR **Enhancing ride comfort and stability via fuzzy-PID controlled semi-active suspension: comprehensive multi-road evaluation** [14300-8]
- 14300 OS **Optimization design of ground test throttle valve and linear pressure drop control strategy for ultra-high pressure gas** [14300-57]
- 14300 OT **Design of an intelligent environmental control system for photovoltaic herbal medicine greenhouses** [14300-6]
- 14300 OU **Event-triggered consensus of one-sided Lipschitz nonlinear multi-agent systems under input delay** [14300-71]
- 14300 OV **Research on integrated current-assisted heat treatment and forming technology for aluminum-lithium alloys** [14300-74]
- 14300 OW **Automated reinforcement learning for intelligent maneuver decision-making in unmanned aerial vehicles** [14300-5]

- 14300 0X **Improved memetic path planning for UAV multi-target search** [14300-7]
- 14300 0Y **Design of multi-stage active-passive hybrid noise reduction system** [14300-67]
- 14300 0Z **Research on a novel high-efficiency silencer device for cooling towers** [14300-14]
- 14300 10 **A low-node-density disjunctive graph model for flexible job shop scheduling** [14300-64]
- 14300 11 **Fuzzy Borda combination evaluation model in the assessment of individual soldier equipment effectiveness** [14300-32]
- 14300 12 **Design of a learning desk system based on multimodal data fusion** [14300-33]
- 14300 13 **Research on intelligent decision model for collaborative planning of multiple satellites, multiple payloads, and multiple tasks** [14300-42]
- 14300 14 **Design and implementation of radio telescope model based on additive manufacturing and automatic control technology** [14300-68]
- 14300 15 **Optimal setpoint determination of dissolved oxygen in wastewater treatment processes** [14300-41]
- 14300 16 **T-S fuzzy control of a fifth-order memristive chaotic system based on Chua's circuit** [14300-27]
- 14300 17 **Short-term photovoltaic power prediction method based on EEMD-GWO-CNN-BILSTM** [14300-49]

SENSING AND MEASUREMENT TECHNOLOGY

- 14300 18 **An improved adaptive visual servoing method for quadrotors** [14300-81]
- 14300 19 **Identification method of IGBT circuit stray inductance based on sliding mode observer** [14300-73]
- 14300 1A **Technical research on fast-pressure-relief testing of cable cover** [14300-72]
- 14300 1B **Research on real-time Linux system modification and FPGA-based hardware-in-the-loop latency testing** [14300-48]
- 14300 1C **Research on motion control of weld seam tracking technology for wall-climbing robots based on DDPG algorithm** [14300-60]
- 14300 1D **Survey of multi-sensor joint calibration techniques for environmental perception** [14300-17]
- 14300 1E **An online closed-loop measurement framework integrating multi-station point cloud registration, and thermal error compensation** [14300-83]

- 14300 1F **A miniature grating interferometer for precision metrology** [14300-52]
- 14300 1G **All-analog phase correction circuit for grating interferometers** [14300-54]
- 14300 1H **A smart travel assistance system for the elderly based on embedded multi-sensor fusion and fall detection algorithm** [14300-51]
- 14300 1I **Determination of silicon carbide epitaxial layer thickness based on Fresnel interference theory** [14300-13]
- 14300 1J **Online monitoring of key components and switching frequency protection for flexible DC converter valves** [14300-4]
- 14300 1K **Unified modeling of EV resolver signals under typical operating conditions** [14300-25]
- 14300 1L **Design of uncooled infrared readout circuit with adaptive dynamic compensation** [14300-47]
- 14300 1M **Fabrication strategies for fiber-shaped carbon architectures and their functional integration into flexible sensing platforms** [14300-11]
- 14300 1N **Design and simulation of data acquisition and real-time processing system based on DSP** [14300-43]
- 14300 1O **A hierarchical dynamic fault tree and Markov chain framework for safety-critical register localization in automotive-grade SoCs** [14300-44]
- 14300 1P **Application research on underwater detection technology for lap welds of PTR refueling water tank in nuclear power plants based on ACFM** [14300-75]
