SPIE*

Volume 14151

Part One of Two Parts

Proceedings of SPIE 0277-786X, V. 14151

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Observatory Operations: Strategies, Processes, and Systems XI*, edited by Christian Wolf, Leanne P. Guy, Proc. of SPIE 14151, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

LIBRARY**

SPIDigitalLibrary.org

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xi *Conference Committee*

Part One

WEDNESDAY PLENARY

- 14151 03 **Building the future of astronomy: China's astronomical infrastructure and the next 10-year roadmap (Plenary Paper)** [14151-501]

SITE AND FACILITY OPERATIONS I

- 14151 04 **Shift happens: a structured approach to human readiness for the 60 day 4MOST commissioning** [14151-2]
- 14151 05 **Commissioning LOFAR 2.0: first results and future plans** [14151-3]
- 14151 06 **The new Weizmann Astrophysical Observatory (WAO)** [14151-4]
- 14151 07 **Lessons learned commissioning the NSF-DOE Vera C. Rubin Observatory: the nighttime perspective (Invited Paper)** [14151-1]

SITE AND FACILITY OPERATIONS II

- 14151 08 **An instrumentation update strategy for the Las Cumbres Observatory's 1-meter telescope fleet (Invited Paper)** [14151-5]
- 14151 09 **Large Binocular Telescope Observatory operations 20 years after first light** [14151-6]
- 14151 0A **Optimizing and modernizing adaptive optics operations at the Large Binocular Telescope Observatory** [14151-7]
- 14151 0B **The 6.5-m MMT Telescope: current status and plans for the future** [14151-8]

SITE AND FACILITY OPERATIONS III

- 14151 0C **NOIRLab five years into integrated operations in engineering** [14151-9]

- 14151 OD **Using field mills to monitor atmospheric electric fields for lightning safety at observatories** [14151-10]
- 14151 OE **Assembly, integration, and verification (AIV) planning for implementing the ALMA wideband sensitivity upgrade (WSU) project** [14151-11]
- 14151 OF **RTCSpy: a robotic telescope control system for multi-telescope array with sub-minute ToO response** [14151-12]
- 14151 OG **From logs to maintenance decisions: explainable transformer-based anomaly detection and subsystem prioritization at Paranal Observatory** [14151-13]

SITE AND FACILITY OPERATIONS IV

- 14151 OH **Operations of the IceCube Neutrino Observatory at the South Pole (Invited Paper)** [14151-14]
- 14151 OI **Hybrid remote telescopes in the high arctic for astronomy and satellite downlink** [14151-15]
- 14151 OJ **Customizable, reactive, and adaptive automated observing** [14151-17]

OPERATIONS BENCHMARKS AND METRICS

- 14151 OK **Optimizing science efficiency on NASA's James Webb Space Telescope (Invited Paper)** [14151-18]
- 14151 OL **Characterisation of the atmospheric total ozone column over La Silla Paranal Observatory** [14151-19]
- 14151 OM **Operational science as a catalyst for innovation: knowledge transfer from observatory environments to machine learning research** [14151-20]
- 14151 ON **25 years science return of the Very Large Telescope** [14151-21]

TIME DOMAIN AND TRANSIENT SURVEYS

- 14151 OO **XMM-Newton in the time-domain era** [14151-22]
- 14151 OP **The constant evolution of the Neil Gehrels Swift Observatory: what two decades of operational innovation have achieved for time-domain and multimessenger astrophysics** [14151-23]
- 14151 OQ **All-sky measurements of lower light pollution in near infrared (NIR) compared to the visible from light polluted sites: broad-band NIR observations can be more sensitive than visible at suburban/urban sites** [14151-24]

- 14151 OR **A new automated scheduler for SOXS transient follow-up observations** [14151-25]
- 14151 OS **The Rubin Observatory target-of-opportunity system in the first year of operations** [14151-26]

OBSERVATION PLANNING AND SCHEDULING I

- 14151 OT **Protecting the dark and quiet sky from satellite constellation interference (Invited Paper)**
[14151-27]
- 14151 OU **The Flagstaff solution for dark skies** [14151-28]

OBSERVATION PLANNING AND SCHEDULING II

- 14151 OW **Operations planning for the Giant Magellan Telescope** [14151-32]
- 14151 OX **Scheduling the LSST: commissioning the Rubin feature-based scheduler** [14151-33]

OBSERVATION PLANNING AND SCHEDULING III

- 14151 OZ **A genetic algorithm for peer-review panel composition** [14151-35]
- 14151 IO **20 years of continuous robotic observation: the two STELLA telescopes** [14151-36]
- 14151 I1 **Artificial intelligence for OAJ Observatory operations: from concept to practice with OPTIMIA, a multi-agent AI operational brain** [14151-37]
- 14151 I2 **Supporting users in their observation preparation: the ESO ObsPrep tool** [14151-38]
- 14151 I3 **Community programs to observe targets of opportunity** [14151-39]

DATA FLOW AND MANAGEMENT, ARCHIVES, SURVEYS I

- 14151 I4 **ESO science operations: from the VLT to the ELT (Invited Paper)** [14151-40]
- 14151 I5 **The ESO science archive: a powerful resource for the worldwide science community**
[14151-41]
- 14151 I6 **The LOFAR2.0 data challenge and current solutions** [14151-43]

DATA FLOW AND MANAGEMENT, ARCHIVES, SURVEYS II

- 14151 17 **Rubin Observatory's approach to providing sustainable scientific user support at scale (Invited Paper)** [14151-44]
- 14151 18 **DKIST vent gate monitoring and exclusion pointing prediction tool for science operations** [14151-46]
- 14151 19 **Making data-driven decisions for highly efficient ALMA science operations** [14151-47]

DATA FLOW AND MANAGEMENT, ARCHIVES, SURVEYS III

- 14151 1B **AI-assisted curation in FUSE: purpose and data-usage classification for the ESO Telescope Bibliography** [14151-49]
- 14151 1C **WFST-ChatOps: a domain-adapted QA chatbot for the Wide Field Survey Telescope** [14151-50]
- 14151 1D **Development of a retrieval-augmented generation virtual assistant for enhanced information discovery at Rubin Observatory** [14151-51]

DIVERSITY AND INCLUSION IN OBSERVATORY OPERATIONS

- 14151 1E **Embedding equity, diversity, and inclusion in the WST collaboration** [14151-52]

POSTER SESSION: SITE AND FACILITY OPERATIONS

- 14151 1F **Prioritizing maintenance workforce effort in ground-based telescopes through a risk-based maintenance strategy** [14151-53]
- 14151 1G **Astronomy operations of the Southern African Large Telescope (SALT): performance, upgrades, and scientific output** [14151-55]

Part Two

- 14151 1H **The GOTO telescope control system** [14151-56]
- 14151 1J **Modernization of the control system of the Hartung-Boothroyd Observatory** [14151-58]
- 14151 1K **The Tulancingo radio observatory in Mexico: project overview, challenges, and current status** [14151-59]

- 14151 1L **The Santa Cruz Radio Observatory (ROSAC): the first radio astronomy facility in Costa Rica**
[14151-60]
- 14151 1M **Intelligent temperature and flow control methods for optical telescope domes** [14151-61]
- 14151 1N **How to turn a small observatory into a multi-instrument facility for photometry, long slit, and échelle spectroscopy** [14151-65]
- 14151 1O **Development of the summit information system for the TAO 6.5m telescope** [14151-66]
- 14151 1P **From issues to insight: a Jira analytics dashboard to prioritize and manage work during NSF-DOE Vera C. Rubin Observatory commissioning and operations** [14151-67]
- 14151 1Q **Towards a pioneering, fully documented architectural design concept for an astronomical observatory in the UAE** [14151-68]
- 14151 1T **Infrastructure and instrument upgrades in support of the Transient Optical Robotic Observatory of the South (TOROS) at the Felix Aguilar Observatory** [14151-71]
- 14151 1U **SCADA system development for multiple telescopes employing a distributed and standardized architecture** [14151-73]
- 14151 1V **Obsolescence-driven upgrade of the VLT M1 cell earthquake detector using a COTS and functional safety strategy** [14151-74]
- 14151 1X **Operational status and instrument suite development at the Magellan Telescopes**
[14151-76]
- 14151 1Y **The use of the phase 2 tracking system to reduce observing failure rate** [14151-77]
- 14151 20 **Vera C. Rubin's auxiliary telescope ascent: fault mitigation and the transition from construction to reliable operations** [14151-79]
- 14151 21 **CFHT's tri-annual observatory shutdown and primary mirror recoating effort** [14151-81]
- 14151 22 **Defining reference architectures for electronics modernization at NOIRLab observatories**
[14151-82]
- 14151 23 **The astronomy infrastructure network in Spain (RIA): promoting synergies, collaboration, and knowledge exchange in a multiwavelength and scientifically diverse landscape**
[14151-83]
- 14151 25 **Design of the Argus Array operations database and hardware management system**
[14151-86]
- 14151 26 **Investigation and recovery from failed wire ropes at the Keck II Telescope top shutter**
[14151-87]
- 14151 27 **Structural pier repair, full-scale implementation of grout replacement on Keck I telescope**
[14151-88]

- 14151 28 **Using muon rings for the optical calibration of ASTRI Mini Array telescopes** [14151-89]
- 14151 29 **PI-type instrumentation at the Subaru Telescope** [14151-90]
- 14151 2A **The automatic mirror alignment system of ASTRI telescopes** [14151-91]
- 14151 2B **Telemetry-based method for identifying wind-induced torque in the elevation axis of an ALMA 12m Total Power antenna** [14151-92]
- 14151 2C **Rubin M1M3 dynamic performance: stability and actuation during operations** [14151-93]
- 14151 2D **Lessons from ESO Phase 3: confronting the challenges of a decade-old system** [14151-94]

POSTER SESSION: OPERATIONS BENCHMARKS AND METRICS

- 14151 2F **Power quality diagnostics at astronomical observatories** [14151-97]
- 14151 2G **What does it mean? Introduction to NOIRLab's terminology extension** [14151-98]
- 14151 2H **Monitoring instrument throughput at the Magellan Telescopes** [14151-99]
- 14151 2I **Upgraded seeing monitor for the South African Astronomical Observatory** [14151-100]
- 14151 2J **Using on-sky, signal-to-noise triggered observations to monitor telescope mirror reflectivity performance** [14151-102]
- 14151 2K **Continuous integration of operations and data quality: the TIO model at ESO's Paranal Observatory** [14151-105]
- 14151 2L **An assessment of reflectance measurements performed at the Large Binocular Telescope** [14151-106]
- 14151 2M **Visualizations and insights for Scientific operations and analytics for ALMA** [14151-107]
- 14151 2N **Automatic tip-tilt adjustment system for the optical metrology delay lines at the VLT: enhancing performance and reducing operational costs** [14151-108]
- 14151 2P **Bootstrapping transient astronomy with the Trans-Pacific 2-m Telescope** [14151-110]
- 14151 2Q **A forced photometry service for the Gravitational-wave Optical Transient Observer (GOTO)** [14151-111]

POSTER SESSION: OBSERVATION PLANNING AND SCHEDULING

- 14151 2R **Satellite constellation simulations for SKAO science operations** [14151-29]
- 14151 2T **The Nightly Digest: an integrated dashboard for monitoring and contextualizing the progress of observatory operations** [14151-85]
- 14151 2U **Flexible scheduling and queue observing with Binospec and MMIRS at the MMT Observatory** [14151-112]
- 14151 2V **Remote observing with the Magellan Telescopes** [14151-113]
- 14151 2X **Evolving time allocation and scheduling for the ESO VLT and VLTl** [14151-115]
- 14151 2Y **Night-time operations under NOIRLab** [14151-116]
- 14151 2Z **Space Situational Awareness programme at Ekar Observatory** [14151-119]
- 14151 30 **Uncertainty-aware ground-based telescope observation scheduling at ALMA** [14151-120]
- 14151 31 **From submission to operations: a proposal handling system for scientific missions** [14151-121]
- 14151 32 **Evolving ScopeSim: an integrated online exposure simulator for the ELT** [14151-123]
- 14151 33 **MIRA: a data management and education platform connecting students to robotic telescopes** [14151-125]
- 14151 34 **Unified LOFAR proposal and project management with TULP and NARCIS** [14151-126]

POSTER SESSION: DATA FLOW AND MANAGEMENT, ARCHIVES, SURVEYS

- 14151 36 **Software for astronomy operations at the Southern African Large Telescope (SALT): successes, challenges, perspectives** [14151-128]
- 14151 37 **DKIST science operations specialists' skills training program implementation** [14151-129]
- 14151 38 **Designing a document management tool in JIRA for science operations specialists** [14151-130]
- 14151 39 **First results of a continuous monitoring campaign of the PLATO Southern field** [14151-131]
- 14151 3A **Digitizing astronomical plates around the world: past, present, and future strategies** [14151-132]
- 14151 3B **Data lifecycle policies in boosting science data ops efficiency** [14151-133]
