PROCEEDINGS OF SPIE

Eighth International Conference on Image, Video Processing, and Artificial Intelligence (IVPAI 2026)

Ruidan Su
Editor

7–9 May 2026
Colombo, Sri Lanka

Organized by
Sun Yat-sen University (China)
Universiti Teknologi Malaysia (Malaysia)
Shanghai Jiao Tong University (China)

Published by
SPIE

Volume 14276

Proceedings of SPIE 0277-786X, V. 14276

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Eighth International Conference on Image, Video Processing, and Artificial Intelligence (IVPAI 2026)*, edited by Ruidan Su, Proc. of SPIE 14276, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii Conference Committee
ix Introduction

COMPUTER VISION AND INTELLIGENT IMAGE ANALYSIS

14276 02 **PulseDLR: pulse deep learning radiomics model** [14276-2]

14276 03 **A GPR B-scan image generation algorithm based on WGAN-GP architecture** [14276-7]

14276 04 **Contactless fingerprint feature extraction integrating minutiae and texture features** [14276-12]

14276 05 **Photon-counting computed tomography: radon transform modeling and energy-resolved reconstruction** [14276-13]

14276 06 **RadioOneAI: a unified deep learning pipeline for MRI brain tumor analysis** [14276-22]

14276 07 **Vehicle re-identification and multi-camera tracking in Vietnamese urban traffic: a new dataset and distributed framework** [14276-40]

14276 08 **Deep learning-based classification of brain activation images for pain type recognition during social and decision-making activities** [14276-6]

14276 09 **An underwater garbage detection algorithm based on REG-YOLO** [14276-9]

14276 0A **Power operation image classification based on improved ACWI-former with adaptive wavelet decomposition levels** [14276-14]

14276 0B **Target recognition method based on wavelet scalogram and deep neural network** [14276-45]

14276 0C **Deep-learning-based image recognition for interactive digital classrooms** [14276-58]

MULTIMODAL INTELLIGENCE AND HUMAN-CENTERED COMPUTING

14276 0D **TikHarmFusion: a multimodal fusion model for harmful content detection in Vietnamese TikTok videos** [14276-39]

14276 0E **SemanDMiner: enhancing dashboard design recommendation with LLM-based semantic understanding** [14276-19]

14276 0F **Feature representation learning and combinatorial optimization method of visual design elements** [14276-41]

14276 0G **Prompting play: AI-generated design through the eyes of a child** [14276-35]

14276 0H **Multi-modal information constraint inference and adaptive algorithm for psychological health risks of university students** [14276-42]

14276 0I **Design of multimodal collaborative representation learning algorithm in English translation tasks** [14276-57]

14276 0J **From causal blueprints to algorithmic monocultures: the trajectory of epistemic collapse in human-AI ecosystems** [14276-37]

14276 0K **Semantic reasoning and interaction optimization for an educational robot using a multimodal corpus of understanding contemporary China** [14276-52]

PREDICTIVE ANALYTICS AND DATA-DRIVEN DECISION MAKING

14276 0L **Accelerating entropy-based time-series analysis for biomedical signals using SIMD parallelism** [14276-25]

14276 0M **DUST: probabilistic sleep stage forecasting with disentangled uncertainty estimation** [14276-21]

14276 0N **Network model analysis and prediction of the relationship between social behavior and psychological well-being of university students** [14276-36]

14276 0O **A study on algorithms for optimizing general education teaching based on student learning behavior data** [14276-48]

14276 0P **Dynamic learning-path optimization via LSTM state modeling for international trade practice course** [14276-43]

14276 0Q **Multimodal learning analytics for precision labor education: an AI and big-data-driven approach** [14276-49]

14276 0R **A real-time traffic flow prediction framework for Ho Chi Minh city using camera based vehicle counting and transfer learning** [14276-38]

14276 0S **Research on data mining and pattern recognition of college Chinese learning behavior in higher vocational colleges for teaching optimization** [14276-53]

DEEP LEARNING MODELS AND COMPUTATIONAL OPTIMIZATION

14276 0T **Optimized scheduling algorithms for heterogeneous microarchitectures in vision systems: a microelectronics perspective** [14276-5]

14276 0U **VNIU-VNR50: a new dataset and framework for fashion image retrieval with vision transformer-based analysis** [14276-18]

14276 0V **A controllable AI framework for certification technical review via knowledge graph and rule engine** [14276-16]

14276 0W **A unified real-time framework for helmet and red-light violation detection in motorcycle-dominant traffic** [14276-34]

14276 0X **A parametric model for the generalized dimension in multifractal analysis** [14276-15]

14276 0Y **Machine-learning-based structure-activity relationship model for TiO_2 catalysts in bisphenol pollutant control** [14276-46]

AI IN EDUCATION AND INTELLIGENT LEARNING TECHNOLOGIES

14276 0Z **Enhancing college English learning through multimedia interaction and visual content design** [14276-56]

14276 10 **An empirical study of the CDIO teaching model for advanced programming under the new engineering framework** [14276-51]

14276 11 **Artificial intelligence driven personalized vocabulary learning path optimization for English education** [14276-61]

14276 12 **Pitch features of disyllabic Dunyu in Cantonese reading discourse** [14276-4]

14276 13 **AI-powered translation and grammar correction for English teaching support** [14276-63]

14276 14 **Interactive early childhood science learning software developed with the Box2D engine** [14276-60]

14276 15 **A PSO-optimized data mining model for English-Chinese translation alignment** [14276-55]

14276 16 **Optimization of a multimodal intelligent Spanish writing teaching system** [14276-64]

14276 17 **Design of an intelligent art appreciation teaching support system based on deep image recognition** [14276-62]

14276 18 **An intelligent evaluation model for vocal performance teaching based on audio feature analysis** [14276-50]

14276 19 **Knowledge graph-based modeling of psychological development paths and intelligent recommendation in preschool education** [14276-59]

INTELLIGENT SYSTEMS, DIGITAL TWINS, AND INDUSTRIAL APPLICATIONS

14276 1A **Consumer AI skepticism in marketing: an integrative review and conceptual framework** [14276-23]

14276 1B **Design and development of a virtual environment for simulation modeling of production processes and personnel training based on a digital twin model** [14276-30]

14276 1C **Research on PVP competition mechanism design in Taobao interactive games** [14276-3]

14276 1D **Application of virtual simulation technology to OBE-oriented continuing education** [14276-54]

14276 1E **Towards digital twins in the food industry: an augmented reality visualization approach** [14276-31]

14276 1F **ALISS: a context-aware intelligent assistance system for accessible smart living** [14276-24]

14276 1G **A digital-twin and VR-enhanced teaching system for building energy efficiency under carbon reduction goals** [14276-65]
