PROCEEDINGS OF SPIE

International Conference on Machine Learning and Unmanned Systems (MLUS 2026)

Fabrizio Marozzo
Javid Taheri
Editors

29–31 May 2026
Nanjing, China

Organized by
Jiangsu Second Normal University (China)

Sponsored by
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 14307

Proceedings of SPIE 0277-786X, V. 14307

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *International Conference on Machine Learning and Unmanned Systems (MLUS 2026)*, edited by Fabrizio Marozzo, Javid Taheri, Proc. of SPIE 14307, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

MACHINE LEARNING FOR UNMANNED SYSTEMS AND INDUSTRIAL APPLICATIONS

14307 02 **AI-powered physiotherapy exercise classification system using MediaPipe and machine learning** [14307-18]

14307 03 **Physics-informed spatio-temporal graph reinforcement learning for safe crowd navigation** [14307-19]

14307 04 **A UAV path planning method based on the WOAGWO hybrid algorithm** [14307-5]

14307 05 **Research progress on the application of industrial Internet and robot technology in ship intelligent manufacturing** [14307-7]

14307 06 **Parameter-efficient small object detection via P2 head co-design for UAV remote sensing images** [14307-17]

14307 07 **Design and implementation of an intent-routed lightweight LLM radar agent system** [14307-9]

14307 08 **Urban low-altitude UAV path planning based on the hierarchical bidirectional A* algorithm** [14307-6]

14307 09 **LRODNet: a framework for 3D object detection of railway tracks in low-light environments** [14307-23]

14307 0A **Research on unmanned aerial vehicle exposure risk assessment based on trajectory and speed** [14307-1]

14307 0B **Multisource feature-driven online monitoring and adaptive control for industrial tobacco stem processing** [14307-3]

14307 0C **Study on denoising multilayer simulated impact signals based on DnCNN** [14307-11]

14307 0D **A spatio-temporal graph attention association model for simulated multitarget tracking** [14307-15]

14307 0E **Optical cable fault classification in distribution networks using ZDBO-BP-Bagging** [14307-8]

14307 0F **Simulation-driven control of UAV smoke-munition release for dynamic line-of-sight obscuration** [14307-10]

14307 0G **An athlete detection model based on edge feature enhancement and dual-frequency information fusion** [14307-4]

14307 0H **Large-kernel hierarchical restoration for reflection removal in passion fruit pulp visual inspection** [14307-13]

14307 0I **MuCRE-TextVQA: Mamba-enhanced uncertainty-aware counterfactual relational executor for text visual question answering** [14307-16]

14307 0J **Adaptive weighted XGBoost optimization with multifeature fusion for industrial data prediction** [14307-24]
