PROCEEDINGS OF SPIE

International Conference on Advanced Sensing and Intelligent Systems (ICASIS 2026)

Wanyang Dai
Editor

16–18 May 2026
Hong Kong, China

Organized by
Nanjing University (China)
University of Haute Alsace (France)
University Canada West (Canada)
Xi'an Jiaotong-Liverpool University (China)
The Hong Kong Polytechnic University (Hong Kong, China)

SPIE

Volume 14309

Proceedings of SPIE 0277-786X, V. 14309

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *International Conference on Advanced Sensing and Intelligent Systems (ICASIS 2026)*, edited by Wanyang Dai, Proc. of SPIE 14309, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

ix *Conference Committee*
xi *Introduction*

ADVANCED PHYSICAL AND MECHANICAL SENSING

14309 02 **Vibration model and response-based method to detect and localise potential faults in bolted rotor systems** [14309-25]

14309 03 **Implementation of an Android-embedded BIA system with machine learning-ready signal processing for precision body composition analysis** [14309-93]

14309 04 **Disturbance compensation control algorithm based on an adaptive neural network and its application in electro-optical systems** [14309-27]

14309 05 **Design and condition monitoring method of an edge computing-based intelligent bearing dust cover** [14309-21]

14309 06 **Development of a non-invasive blood perfusion evaluation device** [14309-39]

14309 07 **Edge-integrated self-mixing laser interferometry for non-contact vibrometry and predictive maintenance in industrial IoT** [14309-23]

14309 08 **Design and application of P(VDF-TrFE)/BNNTs high sensitivity flexible piezoelectric sensor based on micropillar structure** [14309-10]

14309 09 **Identification of fastening compliance for intelligent work-at-height safety belts based on multimodal time-series analysis** [14309-95]

14309 0A **SCAN-R: bridging precision imaging and natural language for automated stroke diagnosis** [14309-34]

14309 0B **Fault detection method for integrated navigation system based on AGA LSSVM** [14309-101]

14309 0C **Active vibration control in 4-DOF magnetic bearing systems using CPO-PID controller** [14309-20]

14309 0D **Decentralized data integrity in mixed-mobility sensor networks: a multiagent reinforcement learning approach** [14309-11]

BIOMEDICAL, WEARABLE, AND ENVIRONMENTAL SENSING

14309 0E **Wearable biosensors for continuous health monitoring in global health: a bibliometric review of accessibility, affordability, and deployment trends** [14309-102]

14309 0F **DisQuan: a hybrid quantum–classical architecture for plant disease detection in staple and specialty crops** [14309-18]

14309 0G **QMicroNet: a quantum hybrid approach to robust cross-domain medical image analysis** [14309-19]

14309 0H **CALYE: a deep learning approach for calamansi fruit yield estimation through CNN-based flower detection** [14309-98]

14309 0I **A gated recurrent unit based model for the identification of waste materials for smart recycling** [14309-12]

14309 0J **Pseudo-Boolean polynomial anomaly scoring for intelligent multisensor environmental monitoring** [14309-97]

14309 0K **Evaluation of acoustic performance of waste materials for noise control in the plywood industry in Indonesia** [14309-94]

14309 0L **Robust lightweight COVID-19 cough audio classification under limited data conditions** [14309-16]

14309 0M **Construction and application of a platform for on-site detection data perception, analysis, and intelligent decision-making of fluids and materials entering the well** [14309-2]

14309 0N **Temporal transformers for biomass estimation** [14309-62]

14309 0O **Machine learning models for terrestrial water storage reconstruction: a comparison of random and temporal splitting strategies** [14309-15]

14309 0P **Machine learning based method for sluice gate scheduling** [14309-13]

QUANTUM DOTS, METASURFACES, AND PHOTODETECTORS

14309 0Q **Speech Editor: an interactive speech editing software with disentangled representation learning** [14309-4]

14309 0R **Solution-processed Ag_2Te colloidal quantum dots with wavelength-dependent photoresponses** [14309-91]

14309 0S **Two-photon photochemical printing of quantum dot–based chiral helical microstructures for circularly polarized light response** [14309-41]

14309 0T **Chip-scale single-beam atomic magnetometer with double-pass pumping enabled by reflective polarization-controlled metasurface** [14309-33]

14309 0U **LSTM-based visual sequence regression for inner-wall roughness prediction in small-diameter CFRP holes** [14309-71]

14309 0V **AT-YOLO: enhanced YOLO-based detector with attention mechanism and tiling for countdown traffic light detection** [14309-64]

14309 0W **Transformer-based neural network for enhanced radar target classification and intent recognition** [14309-36]

14309 0X **MSCALNet: a multiscale convolutional attention LSTM network for IMU-based human activity recognition** [14309-51]

14309 0Y **Quantitative evaluation of stochastics of generative AI tools in literature databases** [14309-37]

14309 0Z **Codebook refinement transformer: post-retrieval correction for neural codec voice conversion** [14309-38]

14309 10 **Noise and sampling schedules in score-based diffusion models for speech enhancement** [14309-35]

14309 11 **Chip-scale optically pumped magnetometry enabled by metasurface polarization beam splitter with high transmission efficiency and extinction ratio** [14309-61]

OPTICAL SENSING, IMAGING, AND INTERFEROMETRY

14309 12 **Beyond data deluge: cloud-grid architectures and end-to-end pipelines for big data processing in optical sensor systems: a scoping and narrative review** [14309-103]

14309 13 **Comprehensive techno-economic and empirical analysis of LoRaWAN infrastructure in high-density industrial environments** [14309-104]

14309 14 **A graph-theoretic approach to real-time IoT fault detection in mixed-mobility networks** [14309-14]

14309 15 **Adaptive sliding-mode composite disturbance-rejection control for variable-mass sloshing dynamics in photovoltaic cleaning UAVs** [14309-46]

14309 16 **Semantic relevance guided grounding for MLLM-based embodied navigation** [14309-47]

14309 17 **Multiscale visual behavior recognition model for aerial workers based on improved ConvNeXt** [14309-92]

14309 18 **AI-powered meeting transcription and summarization system based on Jitsi Meet, Jigasi, and Vosk** [14309-63]

14309 19 **Optimized control and implementation of an Arduino-based smart logistics vehicle** [14309-31]

14309 1A **Optimization method based on three-dimensional dimensions** [14309-5]

14309 1B **Research on establishment of a value system for wireless poor-quality cell work orders** [14309-7]

14309 1C **The application of intelligent operations and maintenance (O&M) process implementation solutions in 5G networks** [14309-89]

14309 1D **FTTR-based whole-house smart solution** [14309-99]

AI FOR INDUSTRIAL AND ENERGY SYSTEMS

14309 1E **Optimization of operation strategy of single-phase submerged liquid cooling system under cross-season transition conditions** [14309-22]

14309 1F **Research on operation data optimization of single-phase immersed liquid cooling system based on different working conditions** [14309-24]

14309 1G **Development and optimization of multidimensional data fusion and intelligent decision system for university students' employment market** [14309-26]

14309 1H **Exploring the direction of sustainable development of the agricultural economy under the development of science and technology in modern society** [14309-105]

14309 1I **Machine learning for assessing child-friendly urban space quality in Chinese metropolises** [14309-6]

14309 1J **Research on the path and algorithm of empowering sustainable education governance with artificial intelligence-based green digital technologies** [14309-106]

14309 1K **Crossing the Rubicon of AI use: how employees' experiences, behaviors, and mindsets shape AI adoption at the workplace** [14309-32]

14309 1L **AI-driven HR analytics in educational institutions: employee turnover prediction using ensemble methods and SHAP** [14309-48]

14309 1M **Research on intelligent recommendation algorithm of matching supply and demand in university employment market based on big data analysis** [14309-87]

14309 1N **A USEM-guided data mining and recommendation system for optimizing career paths of foreign language students** [14309-81]

14309 1O **A big-data-driven sensing and evaluation model for rail transit education** [14309-83]

14309 1P **An intelligent optimization model for generative teaching paths in agriculture related vocational courses** [14309-84]

14309 1Q **An intelligent recommendation system for supporting lifelong learning awareness in private university students** [14309-86]

14309 1R **An intelligent dance teaching system enabled by motion capture fusion and adaptive coaching** [14309-28]

14309 1S **A BIM-driven intelligent construction training system with digital sensing STCPN reasoning and reinforcement feedback** [14309-29]

14309 1T **AI-enabled multisource sensing for competency assessment in vocational education** [14309-72]

14309 1U **Design of a virtual simulation enhanced OBE teaching model for continuing education** [14309-73]

14309 1V **Design and application of an AI-enabled intelligent moral education support system** [14309-74]

14309 1W **An LOF-based anomaly detection system for monitoring learning states in ideological education** [14309-75]

14309 1X **An intelligent course recommendation and teaching system optimization model for private universities** [14309-76]

14309 1Y **An intelligent value added evaluation model for tourism vocational education based on multisource data fusion** [14309-77]

14309 1Z **Optimizing college English curriculum structure with an adaptive particle swarm algorithm** [14309-78]

14309 20 **An adaptive teaching system integrating emotion recognition and learning behavior sensing** [14309-79]

14309 21 **A multisource data-driven mental health assessment model for vocational college students** [14309-80]

14309 22 **A deep-learning-based sensing and evaluation model for teacher instructional competence** [14309-82]

14309 23 **A deep learning based speech assessment and pronunciation correction system for vocational English** [14309-85]
