PROCEEDINGS OF SPIE

Eleventh International Conference on Electromechanical Control Technology and Transportation (ICECTT 2026)

Tao Wang
Editor

5–7 June 2026
Guilin, China

Organized by
Guilin University of Electronic Technology (China)

Sponsored by
Nanning University (China)
Chongqing Vocational Institute of Engineering (China)
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 14324

Proceedings of SPIE 0277-786X, V. 14324

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Eleventh International Conference on Electromechanical Control Technology and Transportation (ICECTT 2026)*, edited by Tao Wang, Proc. of SPIE 14324, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

ix *Conference Committee*

INTELLIGENT TRANSPORTATION SYSTEMS AND TRAFFIC CONTROL

14324 02 **An integrated framework for assessing network resilience to dual disruptions** [14324-99]

14324 03 **Design and verification of a free-flow tolling system for non-ETC vehicles on first-class highways based on radar-video fusion** [14324-78]

14324 04 **A Stackelberg game-based cooperative decision-making model for connected and automated vehicles at unsignalized intersections** [14324-72]

14324 05 **Research on the construction and validation of CAV car-following model under heterogeneous traffic flow** [14324-2]

14324 06 **IoT-based management and control platform for national and provincial highway tunnels** [14324-109]

14324 07 **Visualization analysis of last-mile optimization directions** [14324-67]

14324 08 **Multi-objective collaborative optimization of urban traffic signal timing based on improved genetic algorithm and game theory model** [14324-117]

14324 09 **The impact of community opening on traffic capacity with speed limits and traffic signals** [14324-66]

14324 0A **Heterogeneous vehicle group cooperative consistency control with emergency events based on safety potential fields** [14324-43]

14324 0B **Dual-objective speed optimization of battery-electric ships under lock-transit constraints for energy use and voyage time** [14324-95]

14324 0C **Effects of AV control strategies on mixed traffic flow under highway incidents with service area diversion** [14324-35]

14324 0D **Explainable research on flight delays based on spatiotemporal causal decoupling** [14324-14]

14324 0E **GA-based multi-objective eco-speed optimization for a signalized traffic corridor** [14324-82]

14324 0F **Transfer passenger flow analysis of Taipei rail transit based on smart card data** [14324-41]

14324 0G **Vehicle routing optimization for multidepot end-of-life power battery recycling with soft time windows** [14324-113]

14324 0H **Research on post-station turnback station layouts for train formation** [14324-20]

14324 0I **Modeling asymmetric hysteresis and recovery lag of urban road networks under rainstorm waterlogging** [14324-29]

14324 0J **Large language models in route choice: effects of feedback information on decision behavior and system outcomes** [14324-89]

14324 0K **Green wave signal optimization and VISSIM simulation of Zhuzhou Hangkong Avenue** [14324-73]

14324 0L **Study of vessel-following behavior in port channels based on an improved GM model** [14324-25]

14324 0M **A Bayesian method for highway vehicle origin-destination identification** [14324-21]

14324 0N **Traffic signal control based on weighted mean field multi-agent reinforcement learning** [14324-98]

14324 0O **AVOA-DMC algorithm: an algorithm for calculating traffic signal timing** [14324-81]

14324 0P **From web scraping to spatial analytics: an open-source-based approach for road safety in Senegal** [14324-90]

14324 0Q **A MeanFlow-based trajectory planning for CAVs** [14324-31]

ELECTROMECHANICAL CONTROL AND POWER ELECTRONICS

14324 0R **Adaptive super-twisting sliding mode control of quadrotor UAVs under loss of actuator effectiveness and wind disturbances** [14324-65]

14324 0S **Research on current performance optimization of interleaved parallel buck converters based on coupled inductors** [14324-10]

14324 0T **Research on magnetic integration methods for dual active bridge converters** [14324-7]

14324 0U **Transparent management and control of equipment risks in new power systems: theoretical framework, technical system, and implementation path** [14324-4]

14324 0V **Research and application of an intelligent energy heating control system based on neural network** [14324-102]

14324 0W **Modification of lithium-ion battery electrolyte** [14324-69]

14324 0X **Research on single-layer MPC control for autonomous vehicles based on a safety-first strategy in signalized mixed traffic environments** [14324-74]

14324 0Y **Following rigorous accuracy and research on constructing scenario sets for combined wind and solar power output based on kernel density estimation and copula functions** [14324-49]

14324 0Z **Research on the application characteristics of lithium primary batteries in the full design cycle of small and medium-sized electric aircraft** [14324-92]

14324 10 **Design and validation of a self-powered portable water sterilization device based on a triboelectric nanogenerator** [14324-77]

14324 11 **Application strategy and value analysis of digitalization in risk prevention and control of power marketing business** [14324-33]

14324 12 **Research on DAB output current sharing and multi-objective optimization under parameter drift** [14324-36]

14324 13 **Robust optimization of hydrogen-containing integrated energy systems** [14324-32]

14324 14 **Research on time-delay influence analysis and Smith compensation control for secondary lateral active suspension of EMUs** [14324-111]

14324 15 **Path planning for hydroelectric power plant inspection robots based on a hybrid whale optimization algorithm** [14324-23]

14324 16 **Research on noise and vibration reduction in pumped-storage power stations based on source and transfer path optimization** [14324-59]

14324 17 **Self-triggered model predictive attitude tracking control for quadrotor UAVs** [14324-30]

14324 18 **Research on visual servo control based on Kalman filter and super twisting sliding mode for complex disturbance and measurement noise environment** [14324-56]

14324 19 **Improvement of path planning algorithm based on RRT** [14324-112]

14324 1A **Energy-saving ventilation control for road tunnels based on PSO-PID parameter tuning** [14324-13]

14324 1B **Research on virtual simulation calculation method for fatigue life of truck frame** [14324-47]

14324 1C **Research on coordinated optimization of regenerative braking and braking stability for electric vehicles based on hierarchical control** [14324-110]

14324 1D **Design and implementation of a high-voltage power amplifier for ultrasonic welding** [14324-18]

14324 1E **Performance comparison of pure pursuit, Stanley, LQR, MPC, preview control, sliding mode control for autonomous vehicles path tracking** [14324-37]

14324 1F **Research on multi-objective path planning for UAVs in complex environments based on improved adaptive genetic algorithm** [14324-101]

14324 1G **A design of lightweight frameless torque motor** [14324-27]

14324 1H **Dual closed-loop control of BLDC motor based on FNN-PID** [14324-44]

14324 1I **Applications and development trends of electrical rotary connectors in airborne systems** [14324-48]

14324 1J **Active lateral vibration suppression strategy for heavy vehicles based on centrifugal actuators** [14324-5]

SENSING, DETECTION, AND INTELLIGENT INFORMATION PROCESSING

14324 1K **Design and implementation of a dual-modal civil aircraft maintenance intelligent follow robot based on UWB and vision** [14324-97]

14324 1L **A method for detecting the aging status of nuclear power plant generator units based on defined thresholds** [14324-114]

14324 1M **Frequency-domain temporal transformer networks for state-of-charge estimation of Li-ion batteries** [14324-22]

14324 1N **Comparative study of machine learning algorithms for predicting syngas yield in chemical looping gasification systems** [14324-60]

14324 1O **Research on inland waterway visibility detection based on residual networks** [14324-3]

14324 1P **A transformer encoder architecture for node-level time series forecasting** [14324-75]

14324 1Q **Roadside video-based 2D digital twin representation and short-term trajectory prediction for urban intersections** [14324-42]

14324 1R **Contact wire wear detection method based on segmented fitting of 3D point clouds** [14324-9]

14324 1S **Research on reliability modeling and dynamic evaluation of train-ground communication link in train control system** [14324-94]

14324 1T **Depth-selective evaluation of steel fiber distribution uniformity in conductive asphalt pavement based on multifrequency induction-thermal coupling** [14324-19]

14324 1U **Testing research of parking assistance systems in typical parking scenarios** [14324-15]

14324 1V **Complex pavement distress detection using YOLOv11-EfficientRepBiPAN with cross-level structural feature fusion** [14324-38]

14324 1W **A transferable fault diagnosis method for underwater thrusters using conditional domain adversarial network combined with wavelet denoising and multisource signal fusion** [14324-64]

14324 1X **SE-RAG: structured experience retrieval-augmented generation for non-deterministic logistics dispatch** [14324-71]

14324 1Y **Attention and residual adaptation analysis of node-token GPT2 for traffic flow forecasting** [14324-83]

14324 1Z **Intelligent discrimination method for the closed state of relay contacts in high-speed rail trains** [14324-80]

14324 20 **Research on water level prediction considering uncertainty quantification based on EMD-PSO-RBFNN hybrid model** [14324-84]

14324 21 **HGCA-Net: long-horizon lane-change trajectory prediction with intention-guided fusion** [14324-26]

14324 22 **MSHC-YOLO: multiscale heterogeneous convolution for small object detection in traffic scenes** [14324-100]

14324 23 **MTME-transformer for AIS-based vessel trajectory prediction** [14324-58]

14324 24 **Real-time quantized BEV-LLM autonomous driving under varying traffic densities** [14324-24]

14324 25 **Analysis of influencing factors of autonomous vehicle takeover event based on real scenarios** [14324-6]

14324 26 **Robust traffic speed state estimation using a residual-adaptive learned Kalman filter** [14324-34]

14324 27 **A closed-loop intelligent bird hazard prevention and control system for smart airports** [14324-86]

14324 28 **A multitask CNN-LSTM model for joint prediction of vehicle lanechange intention and collision risk** [14324-8]

14324 29 **Research & development analysis of ADAS active safety testing and evaluation technology** [14324-39]
