

PROCEEDINGS OF SPIE

International Conference on Optics, Electronics, and Communication Engineering (OECE 2026)

Yang Yue
Editor

12–13 June 2026
Wuhan, China

Organized by
Jiangxi University of Water Resources and Electric Power (China)
Hubei Zhongke Institute of Geology and Environment Technology (China)

Published by
SPIE

Volume 14349

Part One of Two Parts

Proceedings of SPIE 0277-786X, V. 14349

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on Optics, Electronics, and Communication Engineering (OECE 2026)*, edited by Yang Yue, Proc. of SPIE 14349, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xv *Conference Committee*

Part One

COMMUNICATION ENGINEERING

- 14349 02 **A parametric model of multipath delay errors in complex reflective environments**
[14349-12]
- 14349 03 **Radar cooperative imaging method based on dynamic threshold optimization and grid clustering** [14349-28]
- 14349 04 **UKF algorithm of GNSS/CNS/SINS navigation system based on the launching coordinate system** [14349-53]
- 14349 05 **One adaptive centralized Kalman filter for multisensor combined navigation system based on variational Bayesian method** [14349-54]
- 14349 06 **Scattering-center parameter-driven FPGA-based wideband radar echo real-time simulation** [14349-67]
- 14349 07 **A novel automatic modulation recognition model on non-cooperative communication**
[14349-70]
- 14349 08 **Electromagnetic bistatic scattering analysis of a 150-m utility-scale wind turbine via CST SBR simulation** [14349-74]
- 14349 09 **GNSS denoising and anomaly detection method based on self-supervised learning**
[14349-95]
- 14349 0A **Design and application of a multisource sensing and IoT-based information system for small-to-medium watershed reservoirs: a case study in an arid region of Northwest China**
[14349-129]
- 14349 0B **Edge-enhanced AR-AI framework for intelligent terminal-assisted field operation and equipment management in power distribution networks** [14349-133]
- 14349 0C **A multisource intelligent sensing framework for ground wire state visualization and real-time diagnostics** [14349-138]
- 14349 0D **Ground-wire intelligent management platform architecture and real-time monitoring based on two-vote coordination and multisource recognition** [14349-141]
- 14349 0E **An MQTT-enabled IoT architecture for smart curtain systems with embedded edge-cloud integration** [14349-155]

- 14349 OF **AR-AI integrated framework for digitalized field operation assistance and equipment management in power distribution systems** [14349-156]
- 14349 OG **Safety monitoring method for pumped storage power stations based on distributed fiber optic networking** [14349-193]

ELECTRONIC AND COMPUTER ENGINEERING

- 14349 OH **A new method for integro cubic splines by using second order derivatives representation** [14349-1]
- 14349 OI **Early prediction of highway accident risks based on traffic data and variational autoencoder-long short-term memory networks** [14349-3]
- 14349 OJ **The impact of correlation-based feature engineering on ensemble model** [14349-10]
- 14349 OK **Research on ECE model for electricity sales companies based on DBSCAN clustering** [14349-13]
- 14349 OL **A monocular vision-based system and method for high-accuracy structural displacement monitoring** [14349-17]
- 14349 OM **Development and application of a BIM-based dynamic cost control system for construction projects** [14349-18]
- 14349 ON **Research on automatic annotation method for standard documents based on deep learning and attention mechanism** [14349-19]
- 14349 OO **Processing and application of high-resolution earth observation satellite remote sensing images: a case study of coastal cities in Hebei Province** [14349-20]
- 14349 OP **A knowledge-enhanced prescription generation model for TCM syndrome differentiation via multilevel memory retrieval** [14349-23]
- 14349 OQ **The impact of the digital economy on regional sustainable development: empirical analysis based on the mediation effect of green innovation capability** [14349-24]
- 14349 OR **Multiview multilabel learning: latest advances and perspectives** [14349-25]
- 14349 OS **Existence of nontrivial radial solutions for a class of augmented Monge-Ampère equation** [14349-30]
- 14349 OT **New presentation and existence of solutions for generalized impulsive fractional Langevin equations** [14349-31]
- 14349 OU **Analysis of regional housing price fairness and public resource mismatch in Hangzhou based on K-Means++ and OLS regression** [14349-36]

- 14349 0V **Camouflaged object detection method for multiscale and cross-domain generalization** [14349-39]
- 14349 0W **Smart medical treatment system based on Python** [14349-43]
- 14349 0X **A dual-guarantee approach for cross-departmental government data sharing with usable-but-invisible privacy based on privacy computing and blockchain** [14349-44]
- 14349 0Y **A framework for detecting and assessing AI algorithm security risks: Privacy leakage, model vulnerability, algorithmic bias, and model hallucination** [14349-45]
- 14349 0Z **The inverted U-shaped relationship between failure cognition and breakthrough technological innovation: empirical evidence from electronic information technology industry** [14349-46]
- 14349 10 **Application of improved rough set attribute significance degree in stock investment decision** [14349-52]
- 14349 11 **High-precision pixel-level recognition method for rock thin sections under energy spectrum-visual fusion** [14349-65]
- 14349 12 **Lightweight aerial small target detection method based on adaptive downsampling and edge preservation** [14349-66]
- 14349 13 **Dual-path attention and transformer-enhanced disentanglement network for underwater image restoration** [14349-81]
- 14349 14 **Analysis the spatiotemporal variation of built-up area in Harbin City based on NPP/VIIIRS nighttime light data** [14349-82]
- 14349 15 **Demand prediction model based on spatiotemporal graph neural network and external knowledge fusion** [14349-83]
- 14349 16 **A distributed supply chain inventory collaborative replenishment strategy based on edge-agent federated learning** [14349-84]
- 14349 17 **Construction of improved LSTM model for consumer psychological preference mining** [14349-85]
- 14349 18 **Consumer interaction intention recognition based on transformer architecture** [14349-86]
- 14349 19 **An English text generation algorithm based on dual attention mechanism and dynamic knowledge enhancement** [14349-87]
- 14349 1A **Research on small foreign body detection of contact net based on improved YOLOv10** [14349-88]
- 14349 1B **A nonlinear distortion monitoring algorithm for sequential pulse signals of nuclear detectors based on LSTM** [14349-89]

- 14349 1C **A lightweight graph convolutional network-based session recommendation method based on multihop attention mechanism** [14349-90]
- 14349 1D **A few-sample image classification method based on contrastive learning and data augmentation** [14349-92]
- 14349 1E **Research on loss and cost optimization of agricultural products' cold chain packaging based on BP neural network** [14349-94]
- 14349 1F **Construction of a major setting model for rural industry adaptability based on neural architecture search** [14349-96]
- 14349 1G **A BERT-based sentiment analysis algorithm for quantitative assessment of public attitudes towards local government new media** [14349-98]
- 14349 1H **Application of LSTM-GRU in green financial market trend prediction** [14349-99]
- 14349 1I **Path optimization for balanced allocation of educational resources based on graph neural networks** [14349-100]
- 14349 1J **Computer vision-based student engagement recognition and course quality evaluation algorithm** [14349-101]
- 14349 1K **Evaluation of student social networks using graph neural networks (GNN)** [14349-102]
- 14349 1L **A classroom concentration detection method based on deep learning image analysis** [14349-103]
- 14349 1M **Reinforcement learning approach for integrated dynamic pricing and inventory control** [14349-105]
- 14349 1N **Virtual reality technology in sports training and rehabilitation: a systematic review and meta-analysis** [14349-107]
- 14349 1O **UAV small object detection algorithm based on dynamic sampling and scale-adaptive loss** [14349-108]
- 14349 1P **A deep learning-based super-resolution method for educational images and an analysis of its educational effectiveness** [14349-109]
- 14349 1Q **Design and implementation of an STM32-based heart rate, blood oxygen, and body temperature monitoring and alarm system** [14349-110]
- 14349 1R **Spatiotemporal evolution and disaster prediction modeling of China's geographical environment based on big data analytics** [14349-112]
- 14349 1S **Medal table prediction: a prediction model for the number of medals combining statistics and machine learning** [14349-113]
- 14349 1T **Construction and application of a medal prediction model based on LSTM and BP neural network** [14349-114]

- 14349 1U **Precipitation forecasting and feature correlation analysis based on the ARIMA-GM(1,1) model** [14349-115]
- 14349 1V **Human health detection system based on STM32** [14349-116]
- 14349 1W **Research on the development trends of the pet industry based on nonlinear regression and ARIMA models** [14349-118]
- 14349 1X **Tackling cybercrime: patterns and policies** [14349-119]
- 14349 1Y **Research on YOLOv10 kernel algorithm improvement and comparative experimental study** [14349-120]
- 14349 1Z **Analyzing the green effects of AI policies: a causal random forest approach with SHAP value interpretation** [14349-121]
- 14349 20 **Research on nonlinear optimization based on logistic function and ARIMA algorithm** [14349-123]
- 14349 21 **Intelligent cybercrime analysis framework: a multidimensional evaluation system integrating machine learning and statistical signal processing for global security assessment** [14349-124]
- 14349 22 **Establishment and solution of a profit optimization model based on improved simulated annealing algorithm** [14349-125]
- 14349 23 **AI-enabled multiobjective optimization for power grid investment scaling and digital transition in uncertain scenarios** [14349-134]
- 14349 24 **Deep reinforcement learning-enhanced framework for precision investment decision and dynamic optimization in power grid systems** [14349-135]
- 14349 25 **Deep pose estimation-based action recognition and performance analysis for intelligent motion understanding** [14349-136]
- 14349 26 **A hybrid model for agricultural pollution load forecasting by integrating meteorological data and soil properties: an XGBoost-LSTM approach** [14349-137]
- 14349 27 **Multifeature fusion and dynamic thresholding algorithm for impurity classification and separation** [14349-139]
- 14349 28 **A 3D scene construction method based on DSM and VTK data fusion** [14349-142]
- 14349 29 **Intelligent bid evaluation based on cross-modal attention: model construction and scenario adaptation** [14349-144]
- 14349 2A **Composite resonant active EMI filter for 16 MHz EMI suppression in EV motor drives** [14349-145]

- 14349 2B **Research and analysis of college students' physical fitness test scores based on GWO clustering algorithm** [14349-146]
- 14349 2C **Compressive sensing-enhanced distributed computing algorithm for large-scale data storage optimization** [14349-147]
- 14349 2D **Adaptive temporal feature extraction and prediction model optimization for extreme weather early warning** [14349-148]

Part two

- 14349 2E **Digital twin-based simulation and optimization decision support system for regional industrial structure** [14349-149]
- 14349 2F **A meta-learning and self-supervised framework for fast convergence in large-scale data optimization** [14349-150]
- 14349 2G **Curriculum-aware pretraining and domain-adaptive BERT for early childhood education content understanding** [14349-151]
- 14349 2H **Graph neural network-based predictive maintenance algorithm for safe operation of dust removal systems in coal-fired power plants** [14349-153]
- 14349 2I **Intelligent space-adaptive lighting control via multimodal sensor data fusion** [14349-154]
- 14349 2J **LLM-based automatic identification and early warning of construction safety risks** [14349-157]
- 14349 2K **Dynamic seismic performance assessment of buildings based on digital twin technology** [14349-158]
- 14349 2L **Urban green space intelligent assessment and dynamic expansion recommendation system based on UAV image analysis** [14349-159]
- 14349 2M **A new BP-LSTM hybrid wind power forecasting model based on improved SFLA optimization** [14349-160]
- 14349 2N **Application of lightweight deep neural network-based face recognition in edge security systems** [14349-161]
- 14349 2O **Transformer-enhanced land use classification algorithm for high-resolution remote sensing imagery** [14349-162]
- 14349 2P **Multimodal information fusion analysis based on deep learning** [14349-163]
- 14349 2Q **Enhancing adversarial defense robustness through sensitive prediction region mining** [14349-164]
- 14349 2R **Prediction of students' physical health level based on LightGBM** [14349-165]

- 14349 2S **Design and application of UAV aerial image detection and recognition system** [14349-166]
- 14349 2T **Research on power trading risk early warning based on XGBoost** [14349-167]
- 14349 2U **Application of CNN-LSTM in infrastructure performance grade assessment** [14349-168]
- 14349 2V **An e-commerce agricultural product recommendation algorithm based on intention perception and graph neural networks** [14349-169]
- 14349 2W **Research on the technology of digital twin system for automotive calibration test** [14349-171]
- 14349 2X **Precise feedback system for motion posture based on computer vision** [14349-172]
- 14349 2Y **Flood disaster prediction based on multivariate correlation analysis and regression models** [14349-174]
- 14349 2Z **Research on urban sustainable development strategies based on multiobjective optimization and game theory** [14349-175]
- 14349 30 **Solving production scheduling optimization integer programming problems based on simulated annealing algorithm** [14349-176]
- 14349 31 **Research on analysis and forecast of the pet industry based on nonlinear regression and ARIMA models** [14349-177]
- 14349 32 **Research on scheduling and planning problems based on simulated annealing algorithm and penalty function approach** [14349-178]
- 14349 33 **A sustainable optimization framework for glacier tourism based on entropy-genetic algorithm** [14349-179]
- 14349 34 **Dynamic system modeling and algorithm optimization for multiagent population control networks** [14349-180]
- 14349 35 **Research on the dynamic coupling mechanism of variables based on benchmark regression and spatial Durbin model** [14349-181]
- 14349 36 **Research on Olympic medal prediction based on GA-ridge regression and SVM** [14349-182]
- 14349 37 **Pet industry growth and global pet food market forecast using nonlinear regression and ARIMA models** [14349-183]
- 14349 38 **Research on pet market development trends based on Pearson correlation analysis and BP neural network** [14349-184]
- 14349 39 **Prediction of Olympic medal distribution and analysis of influencing factors based on the random forest model** [14349-185]

- 14349 3A **Research on production decision optimization based on Monte Carlo algorithm** [14349-186]
- 14349 3B **A study on medal prediction based on XGBoost model and regression analysis** [14349-187]
- 14349 3C **A deep learning-based collaborative generative model for affective and cultural symbols in Xiangju opera music** [14349-190]
- 14349 3D **Evaluation of college student tutoring dialogue based on large language model prompting engineering** [14349-195]
- 14349 3E **Population dynamics analysis considering gender ratio based on logistic model and AHP algorithm** [14349-196]
- 14349 3F **The construction of paper evaluation method based on PLOS ALM platform** [14349-201]
- 14349 3G **An on-wafer equivalent source reflection coefficient measurement method** [14349-202]
- 14349 3H **The application of blockchain technology in risk control of networked finance under information management** [14349-203]
- 14349 3I **Financing strategies for artificial intelligence projects based on evolutionary game theory** [14349-49]
- 14349 3J **Research on medication assistance robot based on multidata fusion of STM32** [14349-128]

MECHANICAL AND AUTOMATION CONTROL

- 14349 3K **Welding layer of austenitic stainless steel on inner wall of pump shell of steam-driven feed water pump in a power plant analysis of cracking cause and welding repair** [14349-14]
- 14349 3L **Household microwave oven shape design integrating Kano model and Kansei Engineering** [14349-15]
- 14349 3M **Municipal sludge pyrolysis for biochar production: mechanism and performance under self-generated atmosphere** [14349-27]
- 14349 3N **Development of an automated drilling machine for small disc-shaped workpieces** [14349-29]
- 14349 3O **Failure analysis and mechanism study on cracking leakage of Incoloy 825 natural gas elbow** [14349-32]
- 14349 3P **A novel high-carbon-content felt for advanced electrothermal applications** [14349-34]
- 14349 3Q **Corrosion failure analysis of the coil in a water jacket heater** [14349-35]

- 14349 3R **Electromagnetic performance analysis of an elevator permanent magnet synchronous motor under coupled demagnetization and eccentricity faults** [14349-37]
- 14349 3S **Temperature control and thermal stress feedback analysis of unconventional layer thickness pouring for roller compacted concrete gravity dam** [14349-41]
- 14349 3T **Effects of temperature on shear behaviour of rock fractures under the thermal-hydraulic-mechanical conditions** [14349-42]
- 14349 3U **Explore the application of waste gypsum in intelligent construction** [14349-48]
- 14349 3V **Structural characteristics of friction stir circumferential spot welding of 3003 aluminum alloy** [14349-56]
- 14349 3W **Feasibility analysis of fuel cell application in underwater vehicles** [14349-57]
- 14349 3X **Study on the effect of residence time on the microstructure evolution of aluminum/copper friction stir double-riveting welded joints** [14349-58]
- 14349 3Y **Influence of applied voltage on the microstructure and corrosion resistance of the MAO coating on 2198 Al-Li alloy** [14349-60]
- 14349 3Z **A CNN-LSTM-PSO-based data-driven closed-loop intelligent control model for deep coalbed methane extraction** [14349-71]
- 14349 40 **Performance impact of adding internal heat exchanger on organic Rankine cycle driven by dual heat sources** [14349-80]
- 14349 41 **A time-series deep learning algorithm for motor fault diagnosis integrating multisource data such as vibration and current** [14349-97]
- 14349 42 **Research on grain storage layout and operation scheduling of port silos based on multiobjective optimization** [14349-104]
- 14349 43 **Research on oxygen-enriched systems based on the magnetic field of permanent magnets** [14349-117]
- 14349 44 **Research on intelligent tensioning control technology for bridge prestressing using ant colony optimization algorithm** [14349-122]
- 14349 45 **Study on small-sample prediction of anchor rod ultimate bearing capacity using gray system theory** [14349-126]
- 14349 46 **Reinforcement learning-based intelligent control algorithm for energy-efficient and emission-aware optimization in industrial power systems** [14349-132]
- 14349 47 **MOTC-ASD: a multiobjective and topology-constrained adaptive structural design algorithm for filter-rod emission tube bend optimization** [14349-140]

- 14349 48 **A multiphysics numerical simulation approach for performance optimization of high-temperature superconducting magnetic energy storage systems** [14349-143]
- 14349 49 **A multiobjective evolutionary optimization algorithm for emission reduction and safety balance in power plant dust removal systems** [14349-152]
- 14349 4A **Study on the mechanical mechanism of new support components and construction safety and stability in tunnels and underground spaces** [14349-188]
- 14349 4B **Influence of grout configuration on the dynamic response of tunnels** [14349-189]
- 14349 4C **Study on diffusion behavior of synchronous grouting slurry based on transparent soil experiment and numerical simulation** [14349-191]
- 14349 4D **Numerical study on low-velocity impact of carbon fiber-reinforced polymer composite circular tubes** [14349-197]
- 14349 4E **Numerical simulation study on the low-velocity impact behavior of CFRP square tubes** [14349-198]
- 14349 4F **Research on a strong earthquake-resistant lateral displacement and self-healing system for curved bridges based on AIDS intelligent bearings** [14349-200]
- 14349 4G **Study on the mechanical characteristics of glaciofluvial deposits near a hydropower station** [14349-204]
- 14349 4H **Influence of the bedding dip angle on the stability of surrounding rock** [14349-205]
- 14349 4I **Multisource response analysis and simulation comparison of an elevator traction system** [14349-93]

OPTICAL ENGINEERING

- 14349 4J **Experimental study on deflection monitoring of bridge model arch rib based on BOTDA** [14349-6]
- 14349 4K **Research on the negative flat dispersion characteristics of photonic crystal fibers based on elliptical defect core** [14349-16]
- 14349 4L **Electronic structure and optical properties of ionic nonlinear optical organic material OHB-T** [14349-22]
- 14349 4M **A method and device for the development of blood-sweat fingerprints at traffic accident scenes based on Rhodamine 6G** [14349-26]
- 14349 4N **High-order harmonic and high-energy noise-like pulse all-fiber laser for high-speed optical communication and high-power applications** [14349-50]

- 14349 4O **Design and experimental evaluation of an IM/DD-based fiber-optic telemetry system for high-temperature downhole applications** [14349-68]
- 14349 4P **Evaluation and validation of detection limits for trace gas detection based on infrared spectroscopy** [14349-69]
- 14349 4Q **Optimization of LYSO crystal surface treatment and detector light-output efficiency via coupled simulation and experimental validation** [14349-78]
- 14349 4R **Toward rapid and nondestructive testing: intelligent authentication of sulfur-fumigated Astragalus by fusing image features with a voting mechanism** [14349-131]
- 14349 4S **Safety monitoring method for pumped storage power station based on AI + fiber optic sensing technology** [14349-192]
- 14349 4T **A multiparameter monitoring method for pumped storage power stations based on integrated sensing and distributed fiber optic sensing** [14349-194]
- 14349 4U **Construction of nitrogen-doped carbon dots-europium ion coordination fluorescence sensing system for detection of pyridine-2,3-dicarboxylic acid** [14349-199]
