# TABLE OF CONTENTS

|                                                                                                                                                                |    |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Non-Destructive Approach of SPAD-Derived Chlorophyll Estimation in Rice Using RGB Vegetation Indices and XGBoost Regression .....                              | 1  |
| <i>Nemilyn A. Fadchar</i>                                                                                                                                      |    |
| An NLP-Based Approach for Robot Teacher on Mitosis Topic .....                                                                                                 | 8  |
| <i>Masyitah Abu</i>                                                                                                                                            |    |
| Real-Time Soil Fertility Monitoring System Using RS-485-Based Electrochemical Sensors Module and NB-IoT Network .....                                          | 13 |
| <i>Ahmad Radhy, Royhan Nurisalam, Putri Yeni Aisyah, Riski Wahyuda Ferdianto, Ranu Wijaya<br/>Muhammad Rafi Cahyafazri, Jenq-Shiou Leu, Arief Abdurrakhman</i> |    |
| Advancing Machine Intelligence: A Comprehensive Review and Proposal for a Novel Meta-Learning Framework .....                                                  | 19 |
| <i>Hoo Meng Wong, Ling Ling Chan, Li Jing Khoo, Sundresan Perumal</i>                                                                                          |    |
| Applying ML for Mediation Analysis Between Residential Segregation and Mortality Rates .....                                                                   | 26 |
| <i>Rui Gong, Jinwei Liu</i>                                                                                                                                    |    |
| Advancements and Challenges in Image Inpainting: a Comprehensive Review of Deep Learning .....                                                                 | 32 |
| <i>Lihua Luo, Norizan Mat Diah, Syed Mohd Zahid Bin Syed Zainal Ariffin</i>                                                                                    |    |
| Enhancing Nasopharyngeal Carcinoma Diagnosis: A Comparative Study of Transfer Learning and Non-Transfer Learning on Whole Slide Image Datasets .....           | 39 |
| <i>Muhammad Kabir Abdullahi, Sarina Binti Mansor, Mohammad Faizal Ahmad Fauzi, Arbab Sufyan Wadood<br/>MD Serajun Nabi</i>                                     |    |
| Urban Air Quality Forecasting Using Machine Learning: A Case Study of $\text{PM}_{10}$ in Kuching, Malaysia .....                                              | 46 |
| <i>Mahiran Muhammad, Ahmad Zia Ul-Saufie, Noor Fadhilah Ahmad Radi</i>                                                                                         |    |
| Exploring EEG Cross-Frequency Coupling Features for Dementia Classification .....                                                                              | 53 |
| <i>Aubree Lianto, Raymond Ho, Kevin Hung, Menghao Waiyan William Zhu, Qi Li</i>                                                                                |    |
| Performance Analysis of Microstrip Antenna with Patch Size Variation at 2.4 GHz on FR-4 Substrate .....                                                        | 61 |
| <i>Ida Rahayu Mohamed Noordin, Amirudin Ibrahim, Shabinar Abdul Hamid, Zuraida Muhammad<br/>Siti Juliana Abu Bakar, Asmalia Zanal</i>                          |    |
| Are Malaysian Children'S Digital Rights Compromised by Sharenting? A Systematic Review of Studies .....                                                        | 67 |
| <i>Nur Husna Razlan, Alya Geogiana Buja, Nor Afirdaus Zainal Abidin</i>                                                                                        |    |
| Cyber Security Awareness Model for the Elderly in Malaysia: A Revisited Work .....                                                                             | 72 |
| <i>Nur Husna Razlan, Teh Faradilla Abdul Rahman, Alya Geogiana Buja, Nurul Alieyah Azam</i>                                                                    |    |
| Shariah Compliance Evaluation of a Blockchainbased Islamic Family Asset Management Platform .....                                                              | 77 |
| <i>Nur Husna Razlan, Dziauddin Sharif, Alya Geogiana Buja, Noor Afni Deraman</i>                                                                               |    |
| A Formal Framework for Requirements Engineering in Large Language Model-Integrated Cyber-Physical Systems .....                                                | 83 |
| <i>TzeHong Lee, Hong Seng Sim, Yong Kheng Goh</i>                                                                                                              |    |

|                                                                                                                                                                                   |     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| AI-Driven Study Plan Timetable Generation: A Weighted Scoring Evaluation of Large Language Models .....                                                                           | 89  |
| <i>Yu Jing Tey, Norazah binti Yusof, Whee Yen Wong, Hooi Ching Beh, Kai Lin Chia, Chian Wen Too</i>                                                                               |     |
| Educational Sentiment Analysis in Chinese Online Learning - Constructing Domain-Specific Dictionaries for Danmu Text .....                                                        | 93  |
| <i>Yang Yang, Carmen Wang Er Chai, Sivachandran Chandrasekaran, Kwan Yong Sim</i>                                                                                                 |     |
| Modelling and Validation of Harmonic Characteristics in Electric Vehicles (EV) Charging Stations Using Real Data from Universiti Malaysia Pahang Al-Sultan Abdullah (UMPSA) ..... | 99  |
| <i>Siti Dhamirah 'Izzati Damni, Hamdan Daniyal, Abu Zaharin Ahmad, Afidatusshimah Mazlan</i>                                                                                      |     |
| Systematic Mapping Study of Retrieval-Augmented Generation in IT Service Desk Operations: Techniques, Applications, and Research Gaps .....                                       | 104 |
| <i>Jamalulkhair Bin Khairudin, Mohd Suffian Sulaiman, Azlan Ismail</i>                                                                                                            |     |
| Comparative Study of Pose Estimation Techniques for Remote Range of Motion Monitoring in Healthcare .....                                                                         | 112 |
| <i>Khugaan Rajandaran, Joel Chia Ming Than, Junhua Xiao, Patrick Hang Hui Then</i>                                                                                                |     |
| A Synergistic Hybrid Metaheuristic Paradigm for Operationally Diverse and Large-Scale Multi-Dimensional Vehicle Routing .....                                                     | 118 |
| <i>Daniel Joseph Foley, Mustafa Muwafak Alobaedy, Mohd Nurul Hafiz Ibrahim</i>                                                                                                    |     |
| EEG Spectral Markers of Eye Strain and Cognitive Stress During Sustained Screen Viewing .....                                                                                     | 123 |
| <i>Yan Kim Chin, Kim Mey Chew, Siaw Hong Liew, Stephanie Chua, Lik Thai Lim, Syvester Tan Chiang Wei</i>                                                                          |     |
| Securing Web Services Transformation: A Maintenance-Centric Framework .....                                                                                                       | 129 |
| <i>Firkhan Ali Bin Hamid Ali, Khairul Amin B. Mohamad Sukri</i>                                                                                                                   |     |
| BERT Based Aspect Sentiment Analysis of Customer Preferences in Malaysia Convenience Stores .....                                                                                 | 132 |
| <i>Muhamad Ikhwan Dannial Johar, Mohamad Faiz Dzulkalnine, Alif Ridzuan Khairuddin Khyrina Airin Fariza Abu Samah</i>                                                             |     |
| Developing a Culturally Aware Multilingual Automated Essay Scoring System for Sri Lanka: Integrating Advanced NLP Techniques with Local Educational Requirements .....            | 138 |
| <i>Jmlu Jayasekara, Ry Sepalage, Pgai Jayathissa</i>                                                                                                                              |     |
| Fractional Chebyshev Approximations for the Stochastic Hamilton-Jacobi-Bellman Problem: A Case Study on Resource Extraction .....                                                 | 144 |
| <i>Alvian Alif Hidayatullah, Subchan Subchan, Sena Safarina, Ali Sophian</i>                                                                                                      |     |
| Characterization of Flex Sensor Resistance Value with Bending Angle of Fingers for Smart Glove Application .....                                                                  | 151 |
| <i>Zarina Mohd Noh, Norhidayah Mohamad Yatim, Muhammad Noorazlan Shah Zainudin, Nur Alisa Ali Ridza Azri Ramlee, Noor Hafizah Abdul Aziz</i>                                      |     |
| Development of IoT-Driven Electrical Management System for Smart Campus Integration with Context Awareness and Automation .....                                                   | 157 |
| <i>Renz Mervin A. Salac, Albert V. Vinluan, Mia V. Villarica</i>                                                                                                                  |     |
| A Stream-Based Chaotic Color Image Encryption Architecture Using Systolic Arrays .....                                                                                            | 163 |
| <i>Shalva H M, Shrusti T R, Sukruth R Bharadwaj, Tarun M V, Rekha S S</i>                                                                                                         |     |

|                                                                                                                                                                   |     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Autoencoder-Assisted Deep Spectral Learning for Hyperspectral Beverage Stain Classification .....                                                                 | 169 |
| <i>Jitendra Shit, V. M. Manikandan</i>                                                                                                                            |     |
