# TABLE OF CONTENTS

|                                                                                                                                                  |    |
|--------------------------------------------------------------------------------------------------------------------------------------------------|----|
| A Polysubject Model for Ensuring the Effectiveness of Teaching Invention to University and School Students: Implementation Experience .....      | 1  |
| <i>Vyacheslav Petrovich Tigrov, Lyudmila Yurievna Negrobova, Inessa Viktorovna Leoke</i>                                                         |    |
| Smart Technologies in the Training of Agro-Industrial Specialists .....                                                                          | 8  |
| <i>A.V. Burminsky, V.N. Orobinskaya, E.V. Galdin, E.N. Kholodova</i>                                                                             |    |
| Digital Globalization of Higher Education as a Trigger for the Formation and Implementation of Human Rights of the 5th and 6th Generations ..... | 13 |
| <i>Alexander Alexandrovich Kuznetsov, Ella Yuryevna Repnikova, Alexander Eduardovich Laas</i><br><i>Vladimir Alexandrovich Kuznetsov</i>         |    |
| The University's Virtual Museum as a Tool for Broadcasting Scientific and Creative Achievements .....                                            | 19 |
| <i>Olga Kazachkova, Yulia A. Boyko</i>                                                                                                           |    |
| Formation of Students' Reflective Position in Vibe Coding as a Principle of Profile Disciplines Modernization in Higher Education .....          | 23 |
| <i>Pavel Saraev</i>                                                                                                                              |    |
| Transforming Coursework and Thesis Preparation in the Digital Era: Legal and Pedagogical Dimensions of AI Use in Legal Education .....           | 27 |
| <i>Elena Nikolaevna Nikiforova, Nataliia Yurievna Fedorova</i>                                                                                   |    |
| Using an IR Receiver with a Mobile Application for Knowledge Testing with Game Elements .....                                                    | 31 |
| <i>Dmitry Skudnev, Sergey Mitsuk, Daniil Kustov</i>                                                                                              |    |
| Developing an Arduino-based Multisensory Prototype for Teaching Artificial Intelligence and Big Data to Dental Students .....                    | 36 |
| <i>Kirill Evstratkin, Natalya Matveeva, Amina Sultanova, Vladimir Simonov, Alexander Fedosov</i>                                                 |    |
| Portal of Methodological Materials .....                                                                                                         | 41 |
| <i>Tatiana A. Grober, Oleg V. Grober</i>                                                                                                         |    |
| Development of an Educational Stand for Learning Computer Vision Technologies Based on CVAT and YOLO v8 .....                                    | 47 |
| <i>A.V. Piatykh, R.V. Batishchev</i>                                                                                                             |    |
| Development of an Educational Stand for Mastering Speech Recognition and Synthesis Technologies Based on a Voice Assistant .....                 | 51 |
| <i>M.I. Kopaev, R.V. Batishchev</i>                                                                                                              |    |
| Implementation of a Complex Concept of Context Compression and Verification of Obtained Results in Big Data Analysis .....                       | 55 |
| <i>Oleg Shachnev, Violetta Zatsepina</i>                                                                                                         |    |
| Visual Interface Evolution of Russian Online Learning Platforms (Convergence With Social Media Services) .....                                   | 60 |
| <i>Olga Kazachkova, Ilya Korovko, Vera Kukushkina</i>                                                                                            |    |
| Development of Sensors and Software Integrated System for Identifying the Microclimate in a Smart Classroom .....                                | 65 |
| <i>E.S. Duvanov, A.F. Pashchenko, D.A. Churkin, Qingyang Li, Zhongwei Li</i>                                                                     |    |

|                                                                                                                                                                     |     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Development of a LinUCB-Based Real-Time Microclimate Control System in a Smart Classroom .....                                                                      | 71  |
| <i>E.S. Duvanov, A.F. Pashchenko, M.Yu. Shishov, Qingyang Li, Zhongwei Li</i>                                                                                       |     |
| Training in Interactive Modeling of the Bending Process of Anisotropic Plates Based on the Boundary State Method .....                                              | 77  |
| <i>Dmitriy Ivanychev, Danila Balykin, Diana Ezdakova, Yulia Bordyugova</i>                                                                                          |     |
| Information Technology as an Auxiliary Tool for Teaching Chinese Students of Medical University to Physics .....                                                    | 82  |
| <i>Evgeniya Filippova, Svetlana Shemyakina, Tatiana Smykovskaya</i>                                                                                                 |     |
| The Life Cycle Model of an Electronic Educational Resource in a University: Theory and Practice .....                                                               | 87  |
| <i>Inna Deriabina, Anastasia Kosmodemyanova, Konstantin Bernhardt, Ljudmila Mironova, Oleg Mashkin Elena Lebedeva</i>                                               |     |
| Analysis of Families' Needs for Psychological and Pedagogical Support as a Basis for the Functioning of Digital Information and Educational Resources .....         | 92  |
| <i>S.Yu. Bubnova, N.S. Bubnov, S.N. Karyakina, O.V. Tarasova</i>                                                                                                    |     |
| Implementation of Local Small Language Model to Overcome Accessibility Challenges in Higher and Secondary Professional Education .....                              | 95  |
| <i>Alexander V. Kuzin</i>                                                                                                                                           |     |
| The Scratch Programming Language as a Tool for Modeling Professional Tasks in the IT Field: From Visual Programming to an Informed Choice of an IT Profession ..... | 100 |
| <i>Sergey Kasyanov, Svetlana Komissarova, Anastasia Tsygankova</i>                                                                                                  |     |
| Use of Digital and Multimodal Technologies in Teaching Disciplines in Higher Education Institutions of Uzbekistan: Impact on Student Engagement .....               | 103 |
| <i>Shakhnoza Ubaydullayeva, Jakhongir Shirinov, Gulnara Makhkamova, Nilufar Kadirova, Otabek Ismailov Dilbaroy Abdullaeva</i>                                       |     |
| Digitalization of the Educational Process as a New Stage in Language Codification (on the Spanish Language Example) .....                                           | 109 |
| <i>Irina V. Zolotareva</i>                                                                                                                                          |     |
| Fuzzy Neighborhood Weakly Connected Systems: Theory, Identification and Control Algorithms in Educational Technologies .....                                        | 114 |
| <i>Alexander Igorevich Bobylev, Roman Valerievich Popov, Anatoly Mikhailovich Shmyrin</i>                                                                           |     |
| A Quantitative Framework for SOC Maturity Assessment Using MITRE ATT&CK-Based Detection Coverage .....                                                              | 118 |
| <i>Mutaz Abdel Wahed, Nader Mohammad Aljawarneh, Feras Almarashdi, Ahmed Zareer</i>                                                                                 |     |
| Using the Gensim Library in Teaching the Natural Language Processing Course .....                                                                                   | 123 |
| <i>S.P. Stroeve, V.I. Dorofeeva, Zh.V. Meksheneva, A.V. Zakharov</i>                                                                                                |     |
| Using Cloud Services and Virtual Environments for Continuing Professional Education Systems .....                                                                   | 128 |
| <i>V.V. Goryunova</i>                                                                                                                                               |     |
| Organizational Factors Effect Knowledge Hiding and Job Search Behavior: The Mediating Role of Employee Cynicism .....                                               | 132 |
| <i>Nader Mohammad Aljawarneh, Khalid Jamal Alshboul</i>                                                                                                             |     |

|                                                                                                                                                                                     |     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Enhancing Ethical Hacking Education: Overcoming Infrastructure and Regulatory Challenges Using a PLS-SEM Approach .....                                                             | 139 |
| <i>Mutaz Abdel Wahed</i>                                                                                                                                                            |     |
| Digital Transformation of Uzbekistan and the Unified Information System for Managing Higher Education Processes .....                                                               | 144 |
| <i>Shakhnoza Ubaydullayeva, Karima Tulenova, Marvarid Mamadjonova, Zarina Gulyamova<br/>Zarnigor Baxronova, Charos Oxunboboyeva</i>                                                 |     |
| The Experience of Using Digital Training Materials to Improve the Quality and Effectiveness of Education in Universities in Uzbekistan .....                                        | 150 |
| <i>Shakhnoza Ubaydullayeva, Rano Gazieva, Munojot Umarova, Nilufar Kadirova, Islombek Yakhshimurodov<br/>Aziza Khalilova</i>                                                        |     |
| The Active Role of Social Networks and Online Platforms in Disseminating Economic (Financial) Information: A Study Within the Framework of University Training of Specialists ..... | 155 |
| <i>Sergey Kasyanov, Ekaterina Fadeeva</i>                                                                                                                                           |     |
| Prevention and Dynamic Analysis of Supply Chain Attacks in Academic Python Environments .....                                                                                       | 159 |
| <i>Dmitrii Sedov, Andrei Lazarev, Alexander Galkin</i>                                                                                                                              |     |
| Multifunctional Center at the University .....                                                                                                                                      | 165 |
| <i>Eleonora Koragodina, Olga Suslova, Irina Polyakova</i>                                                                                                                           |     |
| Digital Inclusive Learning Platform for Higher Education: Architecture, Integration and Economic Efficiency .....                                                                   | 168 |
